

**NEBRASKA WEEKLY SUMMARY**

Recap For Week Ending

February 16, 2019

**Receipts:** This Week: 22,470      Week Ago: 29,018      Year Ago: 29,674

Compared to last week, steers under 500 lbs sold 8.00 to 10.00 higher, over 500 lbs sold mostly steady. Heifers under 700 lbs sold steady, over 700 lbs sold 1.00 to 2.00 lower. Demand was good, especially for light fleshed calves that would be suited for wheat or summer turnout and for replacement type heifers. Most offerings of cattle are selling in lighter flesh than past years. Mostly due to cold weather and rough pen conditions across the state. Most of these cattle have had a lot of wintery weather upon them since last fall thru current week with several cattlemen stating it has been hard to get cattle to gain. Nebraska feedlots traded cattle mostly steady with last week at 125.00 live and 200.00 dressed. Most feedlots were hoping for a dollar to two push but steady is better than trading lower. This week's feeder supply comprised of 52 percent steers, 47 percent heifers with the balance on bull calves. Near 69 percent of the run over 600 lbs.
