

REVISION HISTORY for PDP 2013 Public-Domain Database

6/1/2015 Revision: Revised the **2013** public-domain database and data ZIP file to remove 637 rows for Diazinon (pesticide code 024) in August-December Butter (BU), Celery (CE), Cauliflower (CF), and Infant Formula, Dairy-based (DF) samples reported by the New York (NY1) lab from the Results data table/file. The breakdown of the 637 rows was as follows: BU – 251 rows; CE – 150 rows; CF – 59 rows; DF – 177 rows. The lab submitted a change request to update the result status of the Diazinon findings starting in August 2013 thru 2015 from valid well-recovered to “not analyzed”.

Action:

1) Deleted 637 rows from 13ResultsData data table where COMMOD IN ("BU","CE","CF","DF") and LAB="NY1" and PESTCODE="024" and SAMPLE_PK in (Select SAMPLE_PK from 13SampleData Where MONTH > "07").

5/26/2015 Revision: Revised the **1992-2013** data ZIP files to add tolerance tables for the 1992-2013 surveys to each downloadable ZIP file on the PDP Website. Populated a new ToleranceRef table in each PDPyyyy.mdb database file. Added Excel worksheets for the 1992-2013 tolerance tables into the Ref Tables Excel files included in the ZIP file. The new reference/look-up table holds established EPA Tolerance values for each reported pesticide/commodity pair.
