THE USDA FARMERS MARKET

2017 Rules, Procedures, and Operating Guidelines

PURPOSE

OUR MISSION

The USDA Farmers Market, located outside the United States Department of Agriculture (USDA) Headquarters in Washington, DC, is the Department's own "living laboratory" for farmers market operations across the country. The mission of the market is to promote local food and build a community where we work and live. The USDA Farmers Market supports the local economy, increases marketing opportunities for farmers and small businesses, provides access to an assortment of local and regional sourced products, and increases access to healthy, affordable fresh food in Ward 2.

The market is held May through October just off the National Mall on the corner of Independence Avenue and 12th Street SW and is well attended by USDA employees, other federal workers, tourists, and local residents. Adjacent to the USDA Farmers Market is a certified organic vegetable garden – known as the Headquarters People's Garden. Patrons that visit both the market and garden learn about the variety of fruits and vegetables in season within the Chesapeake Bay region. The USDA Farmers Market offers free programs to educate eaters of all ages about their food, where it comes from, and how to grow, select, and prepare it for everyday meals. The market serves as a place for community members to gather, share a meal, and learn something new from a farmer, grower, producer, and/or exhibitor.

THE SPONSORING AGENCY: AGRICULTURAL MARKETING SERVICE

USDA's Agricultural Marketing Service (AMS) has operated this outdoor market for 22 years. AMS works to improve marketing opportunities for producers across the country through the combination of research, technical assistance, and grants. Each year, AMS helps hundreds of agricultural food businesses, including farmers markets, food hubs, wholesale markets, retailers, State agencies, community-planning organizations, and other agri-food focused groups, enhance their local food marketing efforts. AMS connects consumers to producers at over 8,600 farmers markets across the United States through the National Farmers Market Directory available online at www.usdalocalfooddirectories.com.

THE USDA FARMERS MARKET

2017 Rules, Procedures, and Operating Guidelines

ELIGIBILITY: FOR FARMERS, GROWERS & PRODUCERS

PARTICIPANT ELIGIBILITY

Participants may be “Farmers” (including ranchers, fisherman and growers) or “Producers”.

Farmers must sell what they grow, raise or produce on their farm featuring agricultural foods from the Chesapeake Bay region (including the states of Delaware, Maryland, New York, Pennsylvania, Virginia and West Virginia), and preferably within a 200-mile radius of Washington, D.C.

A Farmer must own or lease the land the product is produced on; and must participate in the production, sales, and marketing of the farm products. The re-sale of agricultural products by farmers, ranchers, and growers is not permitted. Selling goods from a neighboring farm is only allowed if the market participant and the neighboring farm are both members of the same farmer, rancher, or fishery cooperative.

Producers may sell products made featuring agricultural foods from the Chesapeake Bay region, as long as a minimum of 75 percent of the ingredients (by item, not by weight) in the products you wish to sell are sourced directly from a farmer in the Chesapeake Bay region. Water, salt, pepper, oil, and sugar are excluded from the 75 percent requirement. Producers must provide to USDA Farmers Market personnel (hereafter “Market Management”) a list of all ingredients for every product(s) to be sold along with the names of the farm(s) ingredients are sourced from to meet the Producer requirement.

Producers must fall under only one of the following categories to sell at the USDA Farmers Market:

- **Baker:** makes freshly baked goods from scratch, using ingredients from the Chesapeake Bay region as much as possible. Baked goods must be handled in accordance with the rules and regulations described by the state and local health department in which your farm or production facility is located. Bakers will be required to submit current kitchen inspection reports, licenses, and permits.
- **Cheese/Butter/Yogurt/Frozen Dairy Product Maker:** makes cheese and other value-added products from milk that is purchased from dairy farms in the Chesapeake Bay region. Flavoring agents must be sourced locally. Exotic, out-of-region flavorings may be used minimally.
- **Coffee/Teas/Juices/Beverage Maker:** drinks made from scratch using locally sourced ingredients from the Chesapeake Bay region. Exotic, out-of-region agricultural ingredients used to make a beverage will be considered on a case-by-case basis. The sale of water is prohibited.
- **Fisherman/Waterman:** raises or catches fresh fish and shellfish, and uses local processing facilities for seafood products to be sold at market.
- **Food Concessions:** ready-to-eat food and beverages prepared partially or entirely at the market. Heat and serve products prepared off-site are not allowed under this category. Such foods must be made from locally sourced ingredients. Exotic, out of region ingredients will be admitted on a case-by-case basis.
- **Meat Processor:** primarily operates a food processing facility that processes meat raised by regional farmers or ranchers. Sales of fresh meat or poultry products are prohibited. Only frozen meat and frozen poultry products that have been processed in a USDA Food Safety Inspection

Service (FSIS) licensed and inspected facility and bear the USDA seal of inspection are permitted.

- **Pasta Maker:** makes pasta and sauces from scratch, using ingredients from the Chesapeake Bay region.
- **Soap Maker:** handcrafts soaps and/or other health-care products from scratch using ingredients from the Chesapeake Bay region.
- **Specialty:** Other agricultural products, which are not currently available at the market and/or in the Chesapeake Bay region but are important to the agricultural economy in the United States, will be considered on a case-by-case basis.
- **Value Added Food Producer:** makes jellies and jams, preserves, syrups, salsas, flavored oils, kinds of vinegar, pickles, fermented products, and dried products using produce grown by a farmer, rancher, or grower in the Chesapeake Bay region. Exotic, out-of-region, products (such as olive oil), and ingredients will be considered on a case-by-case basis.

- A-B-C fire extinguishers must be provided by the Participant and readily available;
- Electrical extension cords must be rated for outdoor usage and UL (Underwriters Laboratory) certified;
- Cords must be three-prong and securely installed so that no looseness exists between the prongs and the connection point at all times;

CLEAN-UP

Market Participants are responsible for maintaining their space in a clean and sanitary manner with attention to public safety and respect for the use of this public space by others following the end of the market day. Market participants are responsible for cleaning all trash and waste including sweeping up any debris within and around their allotted space. On-site trash receptacles are provided for customer and participant use.

ELECTRICAL OUTLETS

There is limited access to electricity at the USDA Farmers Market. Participants must inform Market Management of their electrical needs and receive **prior approval** before using any existing electrical outlets at the market. Generators are not permitted for use at the farmers market without Market Management approval. If extension cords are used, they must be designed for outdoor use, be three-prong, safely secured at all times, and out of the way of foot traffic. Outdoor extension cords offer protection from moisture, direct sunlight, and abrasion. Devices with two-prong plugs (like appliances) can be used safely with a three-prong extension cord. Devices with three-prong plugs should only be used with three-prong extension cords. The third prong in the extension cord provides a path to the ground wire and greatly reduces the risk of electrical shocks and fires. Participants are responsible for supplying extension cords for their stall use that have been tested and certified for safety and quality by UL (Underwriters Laboratory). Check with Market Management to ensure that you are using an approved outdoor cord. If an inappropriate cord is being used then it will be removed from your stall and your market sales may be impacted. Participants are not to ask USDA on-site electricians to fix their own equipment if it is not working properly.

INCLEMENT WEATHER

The USDA Farmers Market is outdoors and opens rain or shine. Participation on market days with severe or inclement weather is at the discretion of Market Participants. Be sure to notify market personnel of your decision not to participate 48 hours ahead of time. If Market Management cancels the market, participants will be notified of the closure in a timely manner by email or phone.

As of January 1, 2017, new regulations called [The Food Service Packaging Requirements](#) mandate District businesses and organizations that sell or serve food or beverages in the District to exclusively use **recyclable** or **compostable** food service products. The law applies to any food service products designed for single use. These include take-out containers, bowls, plates, trays, cups, cutlery, and other items.
