1.0 FUNDING OPPORTUNITY DESCRIPTION

1.1 LEGISLATIVE AUTHORITY

The Local Agriculture Market Program (LAMP) is authorized by subtitle A of the Agricultural Marketing Act of 1946 (7 U.S.C. § 1621 et seq.) as amended under section 10102 of the Agriculture Improvement Act of 2018, Public Law 115-334. LAMP supports the development, coordination, and expansion of direct producer-to-consumer marketing; [local and regional food markets and enterprises](#); and [value-added agricultural products](#). The primary goals of LAMP are to:

- Connect and cultivate regional food economies through public-private partnerships;
- Support the development of business plans, feasibility studies, and strategies for value-added agricultural production and local and regional food system infrastructure;
- Strengthen capacity and regional food system development through community collaboration and expansion of mid-tier value chains;
- Improve income and economic opportunities for producers and food businesses through job creation; and
- Simplify the application processes and the reporting processes for the Program.

The Regional Food System Partnerships Program (RFSP), Farmers Market and Local Food Promotion Program (FMLFPP), and Value-Added Producer Grants (VAPG) Program are implemented under LAMP. RFSP and FMLFPP are administered by AMS and VAPG is administered by the Rural Business-Cooperative Service under Rural Development. This RFA is for RFSP.

1.2 PURPOSE

The RFSP supports partnerships that connect public and private resources to plan and develop local or regional food systems. The RFSP focuses on building and strengthening local or regional food economy viability and resilience by alleviating unnecessary administrative and technical barriers for participating partners.

Partnerships will be responsible for:

- Determining the size and scope of the local or regional food system in which the project's goals, outreach objectives, and eligible activities are to be carried out;
- Coordinating with AMS to receive and provide technical assistance; and
- Conducting outreach and education for potential participation in the partnership agreement and eligible activities.

Applicants will work with their partners to catalyze the development of local or regional food systems. Applicants will coordinate efforts within the partnership to set priorities, connect resources and services, and measure progress towards common goals.

Partnerships must bring a variety of financial and technical capabilities, demonstrate experience or readiness to work effectively and collaboratively with public and private entities across sectors, and present innovative, sustainable, and measurable approaches to achieving the project's goals.

RFSP grant recipients may apply for other LAMP programs on behalf of producers or eligible entities that desire to participate in eligible activities under the partnership agreement.

1.3 PROJECT TYPES

RFSP offers **Planning and Design** and **Implementation and Expansion** project types.

1.3.1 PLANNING AND DESIGN PROJECTS

Planning and Design projects support partnerships in the early stages of convening, envisioning, and planning processes for developing local or regional food systems. Through these processes, partnerships can determine the goals, outreach, objectives, and eligible activities to be carried out in the regional food system, including defining the region's parameters (economic, geographic, etc.). Specifically, these projects support a food system's capacity to develop and build community connections (public and private) that allow a region to engage in activities that drive the discovery and promotion of collaboration opportunities within the food system. Emphasis is placed on inclusively seeking public and private collaborators that connect and cultivate regional food economies and diverse non-Federal financial and technical resources. Examples of eligible project activities for these partnerships include but are not limited to:

- Convening established and potential partners, such as current or past FMLFPP or VAPG grantees, to define the regional food system scope and structure, share opportunities and challenges, and develop an approach that is inclusive of any potential members of a regional food system;
- Creating and conducting feasibility studies, implementation plans, and assessments, including studies analyzing capital needs and gaps;
- Conducting research on specific market, [mid-tier value chain](#), or infrastructure investments or policy analysis to prioritize next steps at the local, regional, state, and tribal government level;
- Connecting food value chain entities with partners and funders to engage in activities that strengthen the regional food system, such as providing technical assistance to food system enterprises seeking capital investments or initiating and monitoring projects associated with other LAMP programs;
- Researching possible metrics to measure and evaluate the partnership's early development work and identify ways to use and improve them to establish time-defined performance benchmarks for achieving partnership goals.

1.3.2 IMPLEMENTATION AND EXPANSION PROJECTS

Implementation and Expansion projects support partnerships building on prior or ongoing efforts within a local or regional food system. Partnerships funded in this track will have already completed most or all the activities discussed above for Planning and Design projects. Applicants should describe how the goals, objectives, and activities in their proposal build on and/or align with previous efforts, clearly

engage entities with a shared commitment to the regional food system and maintain a diverse public-private network that enhances food system development. Examples of eligible project activities for these partnerships include but are not limited to:

- Prioritizing strategies to fill food systems gaps, meet stakeholder needs, and facilitate market opportunities and food access solutions;
- Institutionalizing processes for ongoing community and business engagement to ensure sustainable approaches meet regional needs and provide a forum for ideas, concerns, and updates;
- Conducting research on specific market, mid-tier value chain, or infrastructure investments or policy analysis to prioritize next steps at the local, regional, state, and tribal government level;
- Supporting food system efforts to analyze capital needs and gaps;
- Connecting eligible entities and partners to meet identified needs in transporting local agricultural products to market;
- Creating innovative value chains in which producers, manufacturers, buyers, and other related actors form collaborative, transparent partnerships with a commitment to shared operational values and social mission goals;
- Increasing stakeholder awareness of regulatory considerations and market channel requirements that may impede the ability of food value chains to access certain channels and assisting producers in navigating such systems;
- Identifying resources for food system enterprises, providing technical assistance for partnership activities such as fiscal sponsorship, and applying for programs and resources that align with regional food system efforts, including other LAMP programs or those seeking capital investments;
- Evaluating the partnership's expansion work and establishing time-defined performance measures for achieving partnership goals.

1.3.3 PROJECTS AND ACTIVITIES NOT ELIGIBLE FOR FUNDING

All AMS awards are subject to the terms and conditions, cost principles, and other considerations described in the [AMS General Terms and Conditions](#). Applicants that have questions concerning the allowability of costs after reviewing the Terms and Conditions should contact AMS staff using the contact information listed under [7.0 Agency Contacts](#).

RFSP is intended to fund the partnership functions and to build capacity for decision making, coordination efforts, obtaining additional resources, and planning direction and needed activities. The partnership or its member entities must identify and utilize other resources to cover costs of implementation where such other resources exist. Activities that can be funded under this grant because they are not commonly funded under other USDA programs might include but are not limited to value chain coordination, convening multiple types of partners and stakeholders for strategic planning, grant-writing, and program exploration on behalf of partners and entities.

AMS recognizes that businesses may source or market some of their food products outside of the defined locality or region. These businesses may participate in RFSP projects as long as they meet the eligibility requirements (see section [3.0](#)), but award recipients may use Federal award funds only to

build a business' capacity to develop, improve, and/or expand local or regional supply chain activities, and not to support supply chain activities for food items originating from or being sold to areas outside the defined locality or region.

Projects are not eligible for funding if the proposed activities:

- Are for production-related expenses, including the purchase of farm equipment, tools, materials, supplies, and other related costs.
- Are related to construction or purchasing land for use by a non-Federal entity.
- Benefit only one agricultural producer or individual.
- Depend upon the completion of another project or the receipt of another grant.
- Duplicate activities in a project that has received a Federal award from another Federal award program.
- Provide capital for revolving loan funds or seed equity funds.

1.3.4 PRIORITY CONSIDERATION

AMS will prioritize applications that:

- Leverage significant non-Federal financial and technical resources **and** coordinate with other local, State, Tribal, or national efforts. While in-kind contributions do not count toward the 25 percent RFSP match requirement, any match resources included in the proposal above and beyond the 25 percent cash match may lend support to the proposal.
- Cover an area that includes communities with areas of concentrated poverty that provide significant opportunities for high impact investment; or
- Have a diverse set of relevant project partners, although such partners need not be based in the partnership's defined region.

AMS will review and apply priority consideration, based on applicant narrative responses, during its administrative review process (see section [5.2](#)).

2.0 AWARD INFORMATION

2.1 TYPE OF FEDERAL ASSISTANCE

AMS will use a Grant Agreement to provide a Federal award to successful applicants.

2.2 TYPE OF APPLICATIONS

New application. All new applications will be reviewed competitively using the selection process and evaluation criteria described in section [5.0 Application Review Information](#).

2.3 AVAILABLE FUNDING

It is anticipated that approximately \$10 million will be available to fund applications in FY 2020. Any funds not awarded under this RFA will be applied to the RFA for the next competitive award cycle.

Enactment of additional continuing resolutions or an appropriations act may affect the availability or level of funding for this program.

2.4 FEDERAL AWARD PERIOD DURATION AND SIZE

AMS expects applicants to complete their projects within the required timeframe. It is acceptable to complete a project before the scheduled performance period end date. However, AMS encourages applicants to take the full grant period to allow ample time to complete projects. The applicant must indicate the start date and end date on Block 17 of the SF-424 “Application for Federal Assistance”.

Award size varies by project type. Applicants may not request less than or more than the respective minimum/maximum amounts. Applicants must justify the requested funding amounts within the respective narrative and work plan sections of the proposal.

Project Type	Duration (Months)	Start Date	Completion Date	Minimum Award	Maximum Award
Planning & Design	24	September 30, 2020	September 29, 2022	\$100,000	\$250,000

All matching contributions **must be committed or secured** at the time an applicant is recommended for an award. An award will not be issued unless all matching funds over the life of the grant are secured. Additional anticipated matching funds not in place by the time the project commences cannot be counted toward the matching requirement.

Applicants must indicate the total match amount and how it will specifically align with their requested funding when completing the Fiscal Plan section of the [RFSP Project Narrative](#) (see section [4.2.2](#)) and submit letters or other documentation verifying the match for EACH cash and in-kind resource (see section [4.2.3](#)).

Indirect costs may count toward the match (see section [4.6.2](#)).

- Is submitted via any method other than through Grants.gov.

Your application will be **rejected** if it:

- Is non-responsive to the requirements of this RFA (see [AMS’ Policy on Non-Responsive Applications](#)).

4.4 SUBMISSION DATE AND TIME

Applications must be submitted electronically through Grants.gov. Ensure that all components of the application are complete before submission. Allow enough time for the application process, as it may take more than one attempt before your application is successfully submitted. AMS encourages you to submit your application at least two weeks prior to the application deadline to ensure all certifications and registrations are met.

Only applications submitted and validated by 11:59 pm Eastern Time on May 26, 2020, to Grants.gov will be accepted. See [AMS’ Policy on Late Applications](#).

4.5 INTERGOVERNMENTAL REVIEW

This program is not subject to [Executive Order 12372](#), which requires intergovernmental consultation with state and local officials.

4.6 FUNDING RESTRICTIONS

4.6.1 INDIRECT COSTS

Indirect costs (also known as “facilities and administrative costs”—defined at [2 CFR § 200.56](#)) are those costs incurred for a common or joint purpose benefitting more than one cost objective, and not readily

assignable to the cost objectives specifically benefitted, without effort disproportionate to the results achieved.

As stated in the regulations ([2 CFR §§ 200.413](#) and [414](#)), any non-Federal entity that has never received a negotiated indirect cost rate, except State and Local Government and Indian Tribe Indirect Cost Proposals, may elect to charge a de minimis rate of 10 percent of modified total direct costs (MTDC) that may be used indefinitely. As described in [2 CFR § 200.403](#), costs must be consistently charged as either indirect or direct costs, but may not be double charged or inconsistently charged as both. If chosen, this methodology once elected must be used consistently for all Federal awards until such time as a recipient chooses to negotiate for a rate, which the recipient may apply to do at any time.

All applicants who elect to charge a de minimis rate of 10 percent must use the MTDC as the base. MTDC are defined in [2 CFR § 200.68](#) as all direct salaries and wages, applicable fringe benefits, materials and supplies, services, travel, and up to the first \$25,000 of each subaward (regardless of the period of performance of the subawards under the award). MTDCs exclude equipment, capital expenditures, charges for patient care, rental costs, tuition remission, scholarships and fellowships, participant support costs, and the portion of each subaward in excess of \$25,000. Other items may be excluded only when necessary to avoid a serious inequity in the distribution of indirect costs, and with the approval of the cognizant agency for indirect costs.

If an applicant has a negotiated indirect cost rate approved by its cognizant agency, the applicant must submit a copy of its approved NICRA with its application. Entities that would like to negotiate an indirect cost rate must contact their cognizant agency. For assignments of cognizant agencies, see [2 CFR § 200.19](#).

4.6.2 USING INDIRECT COSTS FOR COST SHARING OR MATCHING

The maximum amount of indirect costs allowed for a project may be included under the Federal portion of the budget or, alternatively, may be offered as a matching contribution if no indirect costs are requested on the Federal portion of the budget.

The applicant may split the indirect cost allocation between the Federal and non-Federal portions of the budget only if the total amount of indirect costs does not exceed the maximum indirect costs allowed. Alternatively, the recipient may request any other combination that, when combined, does not exceed the maximum indirect costs allowable. Refer to [2 CFR §§ 200.413](#) and [200.414](#) for additional information on determining if costs charged to the award are direct or indirect.

4.6.3 SUBAWARD RESTRICTION

The recipient is expected to perform a majority of the work of the project and may use sub-awarding and/or sub-contracting methods with eligible partners via its partnership agreement to do so for the purposes of the proposed project.

Using Federal grant funds to competitively “re-grant” funds in mini-grant programs, or for activities that are not central to the purpose of the project or unknown costs, is unallowable. However, the recipient may utilize its match to offer mini-grants if so desired, as long as they further the project’s purposes and comply with Federal match requirements at [2 CFR § 200.306](#). If the recipient chooses to offer project

mini-grants with non-Federal funds that do not comply with these regulations, he or she may not include those funds as part of their matching requirement for this grant. For more information, refer to Section [3.4](#).

4.7 GRANTS.GOV APPLICATION SUBMISSION AND RECEIPT PROCEDURES AND REQUIREMENTS

4.7.1 HOW TO REGISTER TO APPLY THROUGH GRANTS.GOV

The registration process can take **up to four weeks** to complete. Therefore, complete your registration allowing enough time to ensure it does not impact your ability to meet required application submission deadlines.

If individual applicants are eligible to apply for this grant funding opportunity, refer to:

<https://www.grants.gov/web/grants/applicants/registration.html>

Organization applicants can find complete instructions here:

<https://www.grants.gov/web/grants/applicants/organization-registration.html>

- 1) *Obtain a DUNS Number:* All entities applying for funding, including renewal funding, must have a [Data Universal Numbering System \(DUNS\) number](#) from Dun & Bradstreet (D&B). Applicants must enter the DUNS number in the data entry field labeled "Organizational DUNS" on the SF-424 form.
- 2) *Register with SAM:* In addition to having a DUNS number, organizations applying online through Grants.gov must register with the [System for Award Management \(SAM\)](#). All organizations must register with SAM to apply online. Failure to register with SAM will prevent your organization from applying through Grants.gov. **SAM.gov accounts must be updated annually, and your organization must have an active SAM.gov account to submit your application to Grants.gov.**
- 3) *Create a Grants.gov Account:* The next step in the registration process is to [create an account with Grants.gov](#). Applicants must know their organization's DUNS number to complete this process. Completing this process automatically triggers an email request for applicant roles to the organization's E-Business Point of Contact (EBiz POC) for review. The EBiz POC is a representative from your organization who is the contact listed for SAM. To apply for grants on behalf of your organization, you will need the Authorized Organization Role (AOR).
- 4) *Authorize Grants.gov Roles:* After creating an account on Grants.gov, the EBiz POC receives an email notifying him or her of your registration and request for roles. The EBiz POC will then log in to Grants.gov and [authorize the appropriate roles](#), including the AOR role, thereby giving you permission to complete and submit applications on behalf of the organization. You will be able to submit your application online any time after you have been approved as an AOR.
- 5) *Track Role Status:* After registering with Grants.gov and authorizing the applicant AOR, Grants.gov allows you [to track your status](#).
- 6) *Electronic Signature:* When applications are submitted through Grants.gov, the name of the organization's AOR who submitted the application is inserted into the signature line of the application, serving as the electronic signature. The EBiz POC **must** authorize individuals who are

able to make legally binding commitments on behalf of the organization to act as an AOR; **this step is often missed, and it is crucial for valid and timely submissions.**

4.7.2 HOW TO SUBMIT AN APPLICATION TO AMS VIA GRANTS.GOV

Applicants may use the Grants.gov Workspace, a shared, online environment where members of a grant team may simultaneously access and edit different webforms within an application. For each funding opportunity announcement, an applicant creates individual instances of a workspace.

- 1) *Create a Workspace*: This allows you to complete your Workspace online and route it through your organization for review before submitting.
- 2) *Complete a Workspace*: Add participants to the workspace, complete all the required forms, and check for errors before submission.

- a. *Adobe Reader*: If you decide not to apply by filling out webforms, you can download individual PDF forms in Workspace so that they will appear similar to other Standard or AMS forms. The individual PDF forms can be downloaded and saved to your local device storage, network drive(s), or external drives, and then accessed through Adobe Reader.

NOTE: You may need to visit the [Adobe Software Compatibility page on Grants.gov](#) to download the appropriate version of the software.

- b. *Mandatory Fields in Forms*: Fields marked with an asterisk and a different background color are mandatory fields you must complete to successfully submit your application.
 - c. *Complete SF-424 Fields First*: The forms are designed to fill in common required fields across other forms, such as the applicant name, address, and DUNS number. To trigger this feature, an applicant must complete the SF-424 information first. Once it is completed, the information will transfer to the other forms.
- 3) *Submit via a Workspace*: Submit your application through Workspace by clicking the Sign and Submit button on the Manage Workspace page, under the Forms tab. Grants.gov recommends submitting your application package **at least 24-48 hours prior to the close date** to provide you with time to correct any potential technical issues that may disrupt the application submission.

SPECIAL NOTE: Grants.gov **does not** check for AMS required attachments. It is the applicant's responsibility to ensure that all required attachments listed in section [4.2 Content and Form of Application Submission](#) are included.

- 4) *Track via a Workspace*: After successfully submitting a workspace package, Grants.gov automatically assigns a Tracking Number (GRANTXXXXXXX) to the package, which will be listed on the Confirmation page generated after submission.

Applicant Support: Grants.gov provides additional [training resources, including video tutorials](#).

Applicants may also call the 24/7 toll-free support number 1-800-518-4726, or email

support@grants.gov. Grants.gov will issue a ticket number to which you and Grants.gov can refer if the

issue is not resolved. For questions related to the specific grant opportunity, contact the persons mentioned in section [7.0 Agency Contacts](#).

4.7.3 TIMELY RECEIPT REQUIREMENTS AND PROOF OF TIMELY SUBMISSION

All applications must be received by the due date established in section [4.4 Submission Date and Time](#). Proof of timely submission is automatically recorded by Grants.gov using an electronic date/time stamp generated when the application is successfully received by Grants.gov. The applicant AOR will then receive an acknowledgement of receipt and a tracking number (GRANTXXXXXXXX) from Grants.gov. Applicant AORs will also receive the official date/time stamp and Grants.gov tracking number in an email serving as proof of their timely submission.

When AMS successfully retrieves the application from Grants.gov and acknowledges the download of submissions, Grants.gov will electronically acknowledge receipt of the application to the applicant AOR's email address. Again, proof of timely submission shall be the acknowledgement email stating the official date and time that Grants.gov receives your application.

AMS will not accept applications packages by fax, email or postal mail. Applications received by Grants.gov after the established due date for the program will be considered late and will not be considered for funding by AMS. See [AMS' Policy on Late Applications](#).

Special Note for Applicants with Slow Internet Connections. Applicants using slow internet, such as dial-up connections, may experience significantly longer transmission times when submitting their application to Grants.gov, especially if there are large attachments contained in the upload. Again, Grants.gov will provide either an error message or a successfully received transmission notification via email to the applicant AOR.

4.7.4 TIPS FOR APPLICANTS

- Register and submit applications early. **DO NOT WAIT UNTIL THE DAY OF THE APPLICATION DEADLINE.**
- Thoroughly read this RFA and follow all the instructions provided by AMS.
- Apply for the correct grant program.
- Make sure you have the most recent copy of Adobe Reader installed on your computer and that it is compatible with [Grants.gov](#) software. Grants.gov supports Adobe Reader version 9.0.0 and higher.
- Limit Application File Size/ File Name Characters (50 or less).
- When uploading attachments, click the "Add Attachments" button (do NOT use the "paperclip" icon in Adobe Reader).
- Do not password-protect your documents and make sure all tracked-changes are "accepted".
- Avoid Special Characters in File Names (\$, %, &, *, Spanish "ñ", etc.).
- Input the correct DUNS number on the SF-424 cover page.

- Review the Grants.gov Applicant User and Registration Guides:
<http://www.grants.gov/web/grants/applicants/applicant-faqs.html>
<https://www.grants.gov/web/grants/applicants/workspace-overview.html>.

5.2 REVIEW AND SELECTION PROCESS

Step 1: Initial Qualification Screening

To meet the basic eligibility requirements, applications must be responsive to the RFA. Please see [AMS' Non-Responsive Application Policy](#) for more information.

Step 2: Technical Review

Each application is evaluated by a panel of peer reviewers. AMS will make every attempt to match reviewers with applications in their areas of expertise. Each reviewer signs a conflict of interest and confidentiality agreement regarding any assigned proposals. The peer review panels evaluate their assigned proposals using instructions prepared by AMS officials. Individual reviewers confer with other team members to derive a consensus score. The consensus review serves as the basis for awarding and allocating grant funds and focuses on strengths and weaknesses of each proposal.

Step 3: Administrative Review

AMS will conduct a final administrative evaluation of each review panel's top rankings and recommendations. In addition to the rank and scores, AMS reviews each application to ensure that potential recommended projects align with the scope of the RFA, allowability of budget items, available funding, geographic diversity, and USDA priorities. AMS staff will work with top-ranked applicants to negotiate any revisions if necessary and possible. AMS will also assess an organization's ability to account for the use of Federal funds and monitor the performance associated with these monies using the guidance provided by [2 CFR § 205\(c\)](#).

6.0 AWARD ADMINISTRATION INFORMATION

6.1 AWARD NOTICES

Upon announcement of the Federal awards, AMS will prepare and send a Notice of Award and Grant Agreement to each recipient for signature by the appropriate official. Grant Agreements consist of a 1-page Agreement Face Sheet (AMS-33) that will be signed by AMS and the AOR.

The Notice of Award and Grant Agreement will provide pertinent instructions and information including, at a minimum, the information described in [2 CFR § 200.210](#) and a reference to the [AMS General Terms and Conditions](#).

6.2 UNSUCCESSFUL APPLICANTS

Unsuccessful applicants will be contacted by AMS via email as soon as possible after the RFSP awards are announced. The unsuccessful applicants will be provided anonymous review panel consensus comments regarding their proposals as feedback.

6.3 ADMINISTRATIVE AND NATIONAL POLICY REQUIREMENTS

As part of the Notice of Award and Grant Agreement, all AMS recipients must abide by the [AMS General Terms and Conditions](#), which reference applicable *Administrative and National Policy Requirements*.

6.4 REPORTING REQUIREMENTS

Reporting and award closeout requirements are included in the [AMS General Terms and Conditions](#). If there are any program or award-specific award terms, those will be identified in the award.

8.0 OTHER INFORMATION

8.1 DEFINITIONS

Local and regional food means food that is raised, produced, aggregated, stored, processed, and distributed in the locality or region where the final product is marketed to consumers, so that the total distance that the product travels between the farm or ranch where the product originates and the point

of sale to the end consumer is kept to a minimum, or both the final market and the origin of the product are within the same State, territory, or tribal land.

Local or Regional Food Business or Enterprise means an organization or business entity that functions as an intermediary between producers (farmers or growers) and buyers by carrying out one or more local or regional food supply chain activities—including aggregating, storing, processing, and/or distributing locally or regionally produced food products—to meet local and regional market demand.

Value-Added Agricultural Product means any agricultural commodity or product that:

- Has undergone a change in the physical state or form of the product, such as milling wheat into flour or making strawberries into jam;
- Is produced in a manner that enhances the value of the agricultural commodity or product, such as organically produced products;
- Is physically segregated in a manner that results in the enhancement of the value of that commodity or product, such as an identity preserved product;
- Is a source of farm- or ranch-based renewable energy, including E-85 fuel; or
- Is aggregated and marketed as a locally produced agricultural food product and, as a result of the change in physical state or the manner in which the agricultural commodity or product is produced and segregated, the customer base for the commodity or product is expanded and a greater portion of revenue derived from the marketing, processing, or physical segregation is made available to the producer of the commodity or product.

Mid-tier Value Chain means a local or regional supply network that links independent producers with businesses and cooperatives that market value-added agricultural product in a manner that:

- Targets and strengthens the profitability and competitiveness of small and medium-size farms and ranches that are structured as a family farm; and
- Obtains agreement from an eligible agricultural producer group, farmer or rancher cooperative, or majority-controlled producer-based business venture that is engaged in the value chain on a marketing strategy.

Limited Resource Entity means an organization that provides technical assistance services to and engages historically underserved farmers and ranchers in addressing their needs. See USDA definition of [Historically Underserved Groups](#) for further information.
