Executive Summary: The U.S. Department of Agriculture (USDA), Agricultural Marketing Service (AMS), requests applications for the fiscal year (FY) 2022 Federal-State Marketing Improvement Program (FSMIP). AMS will competitively award matching grants to eligible applicants for projects that explore new market opportunities for U.S. food and agricultural products and encourage research and innovation aimed at improving the efficiency and performance of the U.S. marketing system.

It is anticipated that approximately \$1 million will be available in total to fund applications under this solicitation. The final amount available is subject to Congressional action. The maximum award is \$250,000. In the FY 2021 application cycle, AMS received 15 applications and funded 5 (33%) of the applications. As such, to be competitive, applications must be complete and of high quality.

Funding will be available for use beginning September 30, 2022. A \$1 for \$1 match, in the form of cash or in-kind resources, is required.

This announcement provides information about the eligibility criteria for applicants and projects and the application forms and associated instructions needed to apply for an award.

AMS encourages applications intended to serve smaller farms and ranches, new and beginning farmers and ranchers, socially disadvantaged producers, veteran producers, and/or underserved communities. For projects intending to serve these audiences, applicants should engage and involve those beneficiaries when developing projects and applications.

Stakeholder Input: AMS seeks your comments about this Request for Applications (RFA). We will consider the comments when we develop the next RFA. Email written stakeholder comments within six months of the publication date of this RFA to: AMSGrants@usda.gov. 1.0 FUNDING OPPORTUNITY DESCRIPTION

1.1 LEGISLATIVE AUTHORITY

The Federal-State Marketing Improvement Program (FSMIP) is authorized by section 204(b) of the Agricultural Marketing Act of 1946 ([7 U.S.C. § 1623\(b\)](#)).

1.2 PURPOSE

To explore new market opportunities for U.S. food and agricultural products, and encourage research and innovation aimed at improving the efficiency and performance of the U.S. agricultural marketing system. FSMIP funds a wide range of applied research projects that address barriers, challenges, and opportunities in marketing, transportation, and distribution of U.S. food and agricultural products domestically and internationally.

1.3 PROJECT TYPES

Applicants must align their proposal to one of the four project types:

- Agricultural Product Distribution (handling, storage, processing, transportation, and distribution)
- Cooperative Development (cooperation among Federal and state agencies, producers, industry organizations, and others in the development and effectuation of research and marketing programs to improve the distribution processes)
- Economic Research to Clarify Marketing Barriers and Opportunities, including regulatory compliance costs
- Agricultural Product Development

AMS acknowledges that projects may align with multiple project types. If a project aligns with more than one project type, the applicant must assign one primary project type and may have multiple secondary project types.

Proposals must have a strong marketing focus, must involve research, and the primary beneficiaries must be agricultural producers and agribusinesses. Additionally, they may address topics dealing with any level of the marketing chain including direct, wholesale, and retail as well as issues of importance at the State, multi-State, or national level. Training or education related proposals must include a research component that tests its effects on the marketing goals.

FSMIP will consider unique smaller-scale proposals that may serve as pilot projects or case studies as models for others. Such proposals must include an objective to analyze opportunities and formulate recommendations regarding how the project could be scaled up or expanded to other regions.

USDA promotes climate-resilient landscapes and rural economic systems, including tools to support agriculture, forests, grazing lands, and rural communities. AMS encourages applicants to consider including goals and activities related to reducing and stabilizing the levels of heat-trapping greenhouse

gases in the atmosphere or adapting to the already occurring climate change in their project's design and implementation.

1.3.1 ELIGIBLE PROJECT TOPICS

FSMIP projects can:

- Determine the best methods for processing, preparing for market, packing, handling, transporting, storing, distributing, and marketing agricultural products.
- Determine the costs of marketing agricultural products in their various forms and through various channels.
- Assist in the development of more efficient marketing methods, practices, and facilities to bring about more efficient and orderly marketing, and reduce the price spread between the producer and the consumer.
- Develop and improve standards of quality, condition, quantity, grade, and packaging in order to encourage uniformity and consistency in commercial practices.
- Eliminate artificial barriers to the free movement of agricultural products in commercial channels.
- Foster new/expanded domestic and foreign markets and new/expanded uses of agricultural products.
- Collect and disseminate marketing information to anticipate and meet consumer requirements, maintain farm income, and balance production and use.

1.3.2 PROJECTS AND ACTIVITIES NOT ELIGIBLE FOR FUNDING

Projects are not eligible for funding if the proposed activities:

- Are related to construction or purchasing land for use by a non-Federal entity.
- Benefit only one agricultural producer, entity, or individual.
- Depend upon the completion of another project or the receipt of another grant.
- Duplicate activities of a project that has received a Federal award from another Federal award program.

For additional allowable and unallowable activities please refer to the AMS General Terms and Conditions. Applicants that have questions concerning the allowability of costs after reviewing the Terms and Conditions should contact AMS staff using the contact information listed under [Agency Contacts](#).

2.0 AWARD INFORMATION

2.1 TYPE OF FEDERAL ASSISTANCE

AMS will use a Grant Agreement to provide a Federal award to successful applicants.

2.2 TYPE OF APPLICATIONS

New application. All new applications will be reviewed competitively using the selection process and evaluation criteria described in section [5.0 Application Review Information](#).

2.3 AVAILABLE FUNDING

It is anticipated that approximately **\$1 million** will be available to fund applications in FY 2022. Enactment of additional continuing resolutions or an appropriations act may affect the availability or level of funding for this program.

2.4 FEDERAL AWARD PERIOD DURATION AND SIZE

AMS expects applicants to complete their projects within the required timeframe. It is acceptable to complete a project before the scheduled performance period end date. However, AMS encourages applicants to take the full grant period to allow ample time to complete projects. The applicant must indicate the start date and end date on Block 17 of the SF-424 “Application for Federal Assistance”.

Applicants may not request less than the minimum or more than the maximum amounts. Applicants must justify the requested funding amounts within the narrative and workplan sections on the project narrative.

Duration (Months)	Start Date	Completion Date	Minimum Award	Maximum Award
36	September 30, 2022	September 29, 2025	\$50,000	\$250,000

3.0 ELIGIBILITY INFORMATION

3.1 ELIGIBLE APPLICANTS

Eligible applicants are state departments of agriculture, state agricultural experiment stations, and other appropriate state agencies from the 50 States, American Samoa, the District of Columbia, Guam, the Federated States of Micronesia, the Commonwealth of the Northern Mariana Islands, the Commonwealth of Puerto Rico, and the U.S. Virgin Islands.

- The term “other appropriate state Agency” means a state university, a state college, or a state government entity such as a state department of forestry, natural resources, or energy.
- The terms “state university” and “state college” include land-grant universities and colleges which are defined as institutions of higher education in the United States and designated by a state to receive the benefits of the Morrill Acts of 1862 and 1890. Tribal colleges and universities that became land-grant institutions in 1994, under the Elementary and Secondary Education Reauthorization Act, as well as other State-run colleges and universities are also eligible.

3.2 PARTNERS AND COLLABORATORS

An applicant may subcontract or subaward with partners and collaborators. Only the applicant must meet the eligibility requirements. Project partners and collaborators do not need to meet these eligibility requirements.

- A *partnership* is a relationship involving close cooperation between parties having specified and joint rights and responsibilities in the management of the project.
- A *collaborator* is a person or an organization unaffiliated with the applicant that cooperates with the applicant in the conduct of the project and is not immediately connected to the management of the project.

Partners and collaborators may be private or public, for-profit or nonprofit entities, including but not limited to:

- New and beginning farmers and ranchers (individuals or entities that have not operated a farm or ranch for more than 10 years and substantially participate in the operation);
- Rural enterprises (small and emerging private businesses in rural areas that have fewer than 50 employees and less than \$1 million in gross revenue);
- Agri-businesses; and
- Local government entities

Applicants are required to show evidence of existing community or industry support and engagement. Applications should demonstrate a commitment to engage potential project beneficiaries as active participants.

3.3 COST SHARING AND MATCHING

This funding opportunity requires a \$1-for-\$1 match in the form of cash and/or in-kind non-Federal resources. There is no competitive advantage for an applicant to provide a cost share or match that exceeds the required amount. If the project is selected for funding, any exceeding amount will be considered voluntary and must be documented.

Cost sharing or the required match must be in the form of allowable direct or indirect costs. Refer to [2 CFR § 200.306](#) for additional Federal requirements and definitions, including the basis for determining the value of cash and in-kind contributions.

In-kind contributions when used as a cost share or match for a grant are generally defined as the value of goods or services provided by a third party for the benefit of the grant program, where no funds transferred hands. These contributions cannot satisfy a cost sharing or matching requirement for this grant program if they are used toward satisfying a match requirement under any other Federal grant agreement to which the applicant is party.

All matching contributions **must be committed or secured** at the time an applicant is recommend for an award. An award will not be issued unless all matching funds over the life of the grant are secured. Additional anticipated matching funds not in place by the time the project commences cannot be counted toward the matching requirement.

Applicants will indicate the total amount of match and how it will specifically align with their requested funding when completing the budget section of the Project Narrative and submit letters or other documentation verifying the match for EACH cash and/or in-kind resource. Refer to section [4.2.5 Matching Funds and Letters of Verification](#) for more information. Indirect costs may count toward

the match. Refer to section [4.6.2 Using Indirect Costs for Cost Sharing or Matching](#) for more information.

Applicants cannot use program income (as defined in [2 CFR § 200.1](#)) or any kind of Federal funds as a match or cost share.

See [AMS’ Late and/or Nonresponsive Applications Policy](#) for more information.

4.4 SUBMISSION DATE AND TIME

Applications must be submitted electronically through Grants.gov. Ensure that all components of the application are complete before submission. Allow enough time for the application process, as it may take more than one attempt before your application is successfully submitted. AMS encourages you to submit your application at least two weeks prior to the application deadline to ensure all certifications and registrations are met.

Only applications submitted and validated by 11:59 p.m. Eastern Time on April 26, 2022, through Grants.gov will be accepted. See [AMS’ Late and/or Nonresponsive Applications Policy](#).

4.5 INTERGOVERNMENTAL REVIEW

This program is not subject to [Executive Order 12372](#), which requires intergovernmental consultation with state and local officials.

4.6 FUNDING RESTRICTIONS

4.6.1 INDIRECT COSTS

Indirect costs (also known as “facilities and administrative costs”—defined at [2 CFR § 200.1](#)) are those costs incurred for a common or joint purpose benefitting more than one cost objective, and not readily assignable to the cost objectives specifically benefitted, without effort disproportionate to the results achieved.

As stated in [2 CFR § 200.414](#), any non-Federal entity that does not have a current negotiated (including provisional) indirect cost rate, except State and Local Government and Indian Tribe Indirect Cost Proposals, may elect to charge a de minimis rate of 10 percent of modified total direct costs (MTDC), which may be used indefinitely. No documentation is required to justify the 10% de minimis indirect cost rate. As described in [2 CFR § 200.403](#), costs must be consistently charged as either indirect or direct costs, but may not be double charged or inconsistently charged as both. If chosen, this methodology must be used consistently for all Federal awards until a recipient chooses to negotiate for a rate, which the recipient may apply to do at any time.

All applicants who elect to charge a de minimis rate of 10 percent must use the MTDC as the base. MTDCs are defined in [2 CFR § 200.1](#) as all direct salaries and wages, applicable fringe benefits, materials and supplies, services, travel, and up to the first \$25,000 of each subaward (regardless of the period of performance of the subawards under the award). MTDCs exclude equipment, capital expenditures, charges for patient care, rental costs, tuition remission, scholarships and fellowships, participant support costs, and the portion of each subaward in excess of \$25,000. Other items may be excluded only when necessary to avoid a serious inequity in the distribution of indirect costs, and with the approval of its cognizant agency for indirect costs.

If an applicant has a negotiated indirect cost rate approved by its cognizant agency, the applicant must submit a copy of its approved *NICRA* with its application. Entities that would like to negotiate an indirect cost rate must contact their cognizant agency. For cognizant agency assignments, see [2 CFR § 200.1](#).

4.6.2 USING INDIRECT COSTS FOR COST SHARING OR MATCHING

The maximum amount of indirect costs allowed for a project may be included under the Federal portion of the budget or, alternatively, may be offered as a matching contribution if no indirect costs are requested on the Federal portion of the budget. For example, if a proposed project’s maximum allowable indirect costs are \$20,000, the applicant may include \$20,000 on the Federal portion of the budget or \$20,000 as a matching contribution, but not both.

The applicant may split the indirect cost allocation between the Federal and non-Federal portions of the budget only if the total amount of indirect costs does not exceed the maximum indirect costs allowed. Alternatively, the recipient may request any other combination that, when combined, does not exceed the maximum indirect costs allowable. Refer to [2 CFR § 200.413](#) and [414](#) for additional information on determining if costs charged to the award are direct or indirect.

4.6.3 ALLOWABLE AND UNALLOWABLE COSTS AND ACTIVITIES

All AMS awards are subject to the terms and conditions, cost principles, and other considerations described in the [AMS General Terms and Conditions](#).

Applicants that have questions concerning the allowability of costs after reviewing this section should contact AMS staff using the contact information listed under [7.0 Agency Contact](#).

4.6.4 COORDINATOR MEETING TRAVEL

Recipients are expected to attend AMS sponsored grants management meeting during the project's period of performance. The proposed budget should include travel funds for the Project Coordinator and any additional key personnel as reasonably determined by the recipient and AMS.

4.7 GRANTS.GOV APPLICATION SUBMISSION AND RECEIPT PROCEDURES AND REQUIREMENTS

4.7.1 HOW TO REGISTER TO APPLY THROUGH GRANTS.GOV

The application organization registration process can take **up to four weeks** to complete. Therefore, complete your registration allowing sufficient time to ensure it does not impact your ability to meet required application submission deadlines.

Individual applicants eligible to apply for this grant funding opportunity should refer to:

<https://www.grants.gov/web/grants/applicants/registration.html>

Organization applicants can find complete instructions here:

<https://www.grants.gov/web/grants/applicants/organization-registration.html>

- 1) *Obtain a DUNS Number or Unique Entity Identifier (UEI):* All entities applying for funding, including renewal funding, must have a from Dun & Bradstreet (D&B) or a Unique Entity Identifier (UEI) from SAM.gov. Applicants must enter the DUNS number or UEI in the data entry field labeled "Organizational DUNS/UEI" on the SF-424 form.
- 2) *Register with SAM:* In addition to having a DUNS/UEI number, organizations applying online through Grants.gov must register with the [System for Award Management \(SAM\)](#). Current SAM.gov registrants have already been assigned their Unique Entity Identifier (SAM) and can view it within SAM.gov. All organizations must register with SAM to apply online. Failure to register with SAM will prevent your organization from applying through Grants.gov. **SAM.gov accounts must be updated annually, and your organization must have an active SAM.gov account to submit your application to Grants.gov.**
- 3) *Create a Grants.gov Account:* The next step in the registration process is to [create an account with Grants.gov](#). Applicants must know their organization's DUNS/UEI number to complete this process. Completing this process automatically triggers an email request for applicant roles to the organization's E-Business Point of Contact (EBiz POC) for review. The EBiz POC is a representative from your organization who is the contact listed for SAM. To apply for grants on behalf of your organization, you will need the Authorized Organization Role (AOR).
- 4) *Authorize Grants.gov Roles:* After creating an account on Grants.gov, the EBiz POC receives an email notifying him or her of your registration and request for roles. The EBiz POC will then log in to Grants.gov and [authorize the appropriate roles](#), including the AOR role, thereby giving you permission to complete and submit applications on behalf of the organization. You will be able to submit your application online any time after you have been approved as an AOR.
- 5) *Track Role Status:* After registering with Grants.gov and authorizing the applicant AOR, Grants.gov allows you [to track your status](#).

- 6) *Electronic Signature*: When applications are submitted through Grants.gov, the name of the organization's AOR who submitted the application is inserted into the signature line of the application, serving as the electronic signature. The EBiz POC **must** authorize individuals who are able to make legally binding commitments on behalf of the organization to act as an AOR; **this step is often missed, and it is crucial for valid and timely submissions.**

4.7.2 HOW TO SUBMIT AN APPLICATION TO AMS VIA GRANTS.GOV

Applicants may use the Grants.gov Workspace, a shared, online environment where members of a grant team may simultaneously access and edit different webforms within an application. For each funding opportunity announcement, an applicant can create individual instances of a workspace.

- 1) *Create a Workspace*: This allows you to complete your Workspace online and route it through your organization for review before submitting.
- 2) *Complete a Workspace*: Add participants to the workspace, complete all the required forms, and check for errors before submission.
 - a. *Adobe Reader*: If you decide not to apply by filling out the webforms, you can download individual PDF forms in Workspace so that they will appear similar to other Standard or AMS forms. The individual PDF forms can be downloaded and saved to your local storage device storage, network drive(s), or external drives, and then accessed through Adobe Reader.

NOTE: You may need to visit the [Adobe Software Compatibility page on Grants.gov](#) to download the appropriate version of the software. There is no cost for Adobe Reader Software.
 - b. *Mandatory Fields in Forms*: Fields marked with an asterisk and a different background color are mandatory fields you must complete to successfully submit your application.
 - c. *Complete SF-424 Fields First*: The forms are designed to fill in common required fields across other forms, such as the applicant name, address, and DUNS number. To trigger this feature, an applicant must complete the form SF-424 information first. Once it is completed, the information will transfer to the other forms.
- 3) *Submit a Workspace*: Submit your application through Workspace by clicking the Sign and Submit button on the Manage Workspace page, under the Forms tab. Grants.gov recommends submitting the application package **at least 24-48 hours prior to the closing date** to provide you with time to correct any potential technical issues that may disrupt the application submission.

SPECIAL NOTE: Grants.gov **does not** check for AMS required attachments. It is the applicant's responsibility to ensure that all required attachments listed in section [4.2 Content and Form of Application Submission](#) are included.

- 4) *Track a Workspace*: After successfully submitting a workspace package, Grants.gov automatically assigns a Tracking Number (GRANTXXXXXXX) to the package, which will be listed on the Confirmation page generated after submission.

Applicant Support: Grants.gov provides additional [training resources, including video tutorials](#). Applicants may also call the 24/7 toll-free support number 1-800-518-4726, or email support@grants.gov. Grants.gov will issue a ticket number to which you and Grants.gov can refer if the issue is not resolved. For questions related to the specific grant opportunity, contact the individuals mentioned in section **7.0 Agency Contacts**.

4.7.3 TIMELY RECEIPT REQUIREMENTS AND PROOF OF TIMELY SUBMISSION

All applications must be received by the due date established in section **4.4 Submission Date and Time**. **Proof of Timely Submission** is automatically recorded by Grants.gov using an electronic date/time stamp generated when the application is successfully received by Grants.gov. The applicant AOR will then receive an acknowledgement of receipt and a tracking number (GRANTXXXXXXXX) from Grants.gov. Applicant AORs will also receive the official date/time stamp and Grants.gov tracking number in an email serving as proof of their timely submission.

When AMS successfully retrieves the application from Grants.gov and acknowledges the download of submissions, Grants.gov will electronically acknowledge receipt of the application to the applicant AOR's email address. Again, proof of timely submission shall be the official date and time that Grants.gov receives your application. Applications received by Grants.gov after the established due date for the program will be considered late and will not be considered for funding by AMS. AMS will not accept applications packages by fax, email, or postal mail. See [AMS' Policy on Late Applications](#).

Special Note for Applicants with Slow Internet Connections. Applicants using slow internet connections, such as dial-up connections, may experience significantly longer transmission times when submitting their application to Grants.gov, especially if there are large attachments contained in the upload. Again, Grants.gov will provide either an error message or a successfully received transmission notification via email to the applicant AOR.

4.7.4 TIPS FOR APPLICANTS

Step 1: Initial Qualification Screening

Each application is initially reviewed for overall completeness, as well as compliance with eligibility and program requirements as set forth in this RFA. If an application does not meet these requirements, it is removed from consideration. Please see [AMS’ Late and/or Non-Responsive Applications Policy](#) for more information.

Step 2: Technical Review

Each application that passes initial screening (Step 1) is evaluated by a panel of independent peer reviewers. AMS makes every attempt to match reviewers with applications in their areas of expertise. Each reviewer signs a conflict of interest and confidentiality agreement regarding any assigned proposals. The peer review panels evaluate their assigned proposals using instructions prepared by AMS officials. Individual reviewers confer with other team members to derive a consensus score. The consensus review serves as the basis for awarding and allocating grant funds and focuses on strengths and weaknesses of each proposal.

Step 3: Administrative Review

AMS will conduct a final administrative evaluation of each review panel's top rankings and recommendations. In addition to the review panel's rank and scores, AMS reviews each application to ensure that potential recommended projects align with the scope, allowability of budget items, available funding, geographic diversity, and USDA priorities. AMS staff will work with top-ranked applicants to negotiate any revisions as necessary. AMS will also assess an organization's ability to account for the use of Federal funds and monitor the performance associated with these monies using the guidance provided by [2 CFR § 200.206](#).

6.0 AWARD ADMINISTRATION INFORMATION

6.2 UNSUCCESSFUL APPLICANTS

Unsuccessful applicants will be contacted by AMS via email as soon as possible after the awards are announced to inform them of the results. AMS will email unsuccessful applicants the anonymous review panel consensus comments regarding their proposals.

6.3 ADMINISTRATIVE AND NATIONAL POLICY REQUIREMENTS

As part of the NOA, all AMS recipients must abide by the [AMS General Terms and Conditions](#), which reference applicable *Administrative and National Policy Requirements*.
