AMENDMENT NO. 1

COMMODITY SPECIFICATION FROZEN FRUIT JUICES DATED JUNE 2014

The purpose of this amendment is to insert an individual cup size option for orange juice from concentrate.

I. Packing, Labels and Packaging

Commercial Labels and Packaging

1. Primary Containers

c. All products must be packed in new, commercially acceptable primary containers (cans/cartons/**cups**). Frozen fruit juices shall be packed only in the container size and type specified in the applicable Invitation. The containers must be suitably code marked so that the product can be identified with related inspection certificates.

USDA Label and Packaging

1. Primary Containers

•Orange Juice from Concentrate, Pasteurized Orange Juice, Apple Juice from Concentrate, and Pasteurized Apple Juice

Primary containers must be of food grade quality in accordance with the federal Food and Drug Administration's Food Additives Regulations for commercial retail use containers, and have a minimum average net content. All individual servings sizes must be packed in the container type and size specified in the applicable commodity specification or Solicitation/IFB. "Carton" refers to milk carton type containers.

See Exhibits 1, 1-1, and 1-2 for labels for concentrated orange juice and juices in individual servings.

II. Individual Commodity Specifications

B. Orange Juice from Concentrate in Individual Serving Sizes

1. Grade – U.S. Grade A.
2. Primary Container Size – 4-fluid ounce individual serving containers.
3. Count – 70 cartons per case or 96 cups per case.
4. Net Weight – 19 pounds per case (70 count cartons), 25 pounds per case (96 count cups).
5. Inspection – USDA in-plant inspection required.
6. Shelf Life – No more than 6 months if kept frozen, ten days after thawing.
