

Operational Guidance for Reporting of Boxed Beef, and Lamb and Pork Items Not Covered Under the Regulations

Issue: Packers reporting boxed beef, lamb and pork items not covered under the regulations.

Livestock, Poultry, and Grain Market News (LPGMN) Position: Due to the method in which the Livestock Mandatory Reporting system codes boxed items, additional items that packers may report do not interfere with the issuance of LPGMN reports. As new items come to the marketplace, LPGMN may decide to add additional items to the boxed beef, lamb, and pork reports if the volume warrants it.

LPGMN Guidance: Packers that submit additional boxed beef, lamb, or pork information will not be considered to be in violation of the regulations.
