1. All markets combined and yearly total may not add due to rounding.
Methodology:

Data are submitted monthly by regulated handlers (milk buyers) to the regional Federal Milk Marketing Order Administrators (MA’s). The monthly data are collected and then submitted to the Market Information Branch located in Washington, DC. Data are aggregated, organized, and formatted to provide the industry with monthly information reports.

Utilization of Producer Milk in Class III Products is the monthly volume of milk used to produce Class III Milk products.

The monthly All Markets Combined line is the total volume of milk used to produce Class III Milk products for each month.

The year-to-date (YTD) column is the total volume of milk used to produce Class III Milk products for each individual order and for all orders combined.

Class III Utilization Percentage of Producer Milk is the monthly volume of Class III Milk used to produce Class III products in each individual order divided by the monthly total of all producer milk pooled for that individual order for all classes.

The monthly All Markets Combined percentage line is the total volume of milk used to produce Class III Milk products for each month divided by total volume of milk pooled that month.

The year-to-date (YTD) column is the total of milk used to produce Class III Milk products for each individual order and for all orders combined divided by the total of all milk pooled for all classes of milk.

Butterfat Test of Producer Milk Used in Class III Products is the percentage of butterfat found in the Class III milk for each order for each month.

The All Markets Combined line is the percentage of butterfat found in the total Class III milk for all orders for the month.

The year-to-date (YTD) column is the percentage of butterfat found in the total Class III milk for each individual order and for all orders combined.

Protein Test of Producer Milk Used in Class III Products is the percentage of protein found in the Class III milk for each order for each month.

The All Markets Combined line is the percentage of protein found in the total Class III milk for all orders for the month.

The year-to-date (YTD) column and the annual is the percentage of protein found in the total Class III milk for each individual order and for all orders combined.
**Other Solids Test of Producer Milk Used in Class III Products** is the percentage of other solids found in the Class III milk for each order for each month.

The All Markets Combined line is the percentage of other solids found in the total Class III milk for all orders for the month.

The year-to-date (YTD) column and the annual is the percentage of other solids found in the total Class III milk for each individual order and for all orders combined.
