November 13, 2013

Location Specific Analysis P.2

National Overview Maps P. 3-5

Container Availability by Location:

- Charleston, SC P.6
- Chicago, IL P.7
- Cincinnati, OH P.8
- Columbus, OH P.9
- Dallas, TX P.10
- Denver, CO P.11
- Houston, TX P.12
- Kansas City, MO P.13
- Los Angeles and Long Beach, CA P.14
- Memphis, TN P.15
- Minneapolis, MN P.16
- New Orleans, LA P.17
- New York, NY P.18
- Norfolk, VA P.19
- Oakland, CA P.20
- Savannah, GA P.21
- Seattle, WA P.22
- Tacoma, WA P.23

Weekly Container Overview

Don't Miss the New Addition to OSCAR

Our series of location-specific analyses of OSCAR's container availability data continues this week with a look at the Minneapolis market. Over the past 2 weeks, container availability analysis has been provided for Chicago and Kansas City. AMS will provide similar analysis for each of the 18 reported locations, over the next several months. Please see page 2 for this week's analysis.

Note: This week's report has been retroactively updated to include data from all 6 participating carriers.

- Ports: The ports of Los Angeles/Long Beach, New York, Norfolk, and Charleston are expected to have the most available containers among the reported port locations over the next 3 weeks. Availability estimates fell from the previous week at each of the above mentioned locations.
- Inland Locations: Among the reported inland locations, Memphis, Dallas, Chicago, and Columbus are expected to have the most containers available over the next 3 weeks. Availability estimates increased this week in Chicago and Memphis, but decreased in Dallas and Columbus.
- Equipment: Overall, current week availability for all container types combined decreased this week by more than 6, 900 units.
 - With one less carrier reporting this week, availability estimates fell at 14 of the 18 reported locations. However, 4 locations saw increases—Chicago, Houston, Memphis, and Seattle particularly for 20ft dry and 40ft high-cube containers in Chicago and 40ft high-cubes in Houston and Seattle.

Week-to-Week Comparison of Current Week Availability Estimates

| Container type | Week of Oct 23-29 | Week of Oct 30-Nov 5 | Week of Nov 6-12 | *Week of Nov 13-19 | % Change from Previous Week |
|-------------------|-------------------|----------------------|------------------|--------------------|-----------------------------|
| 20ft dry | 7,511 | 8,838 | 8,710 | 7,297 | -16% |
| 40ft dry | 10,452 | 9,136 | 10,977 | 8,984 | -18% |
| 40ft high-cube | 21,532 | 20,293 | 21,670 | 18,663 | -14% |
| 40ft refrigerated | 3,133 | 2,751 | 2,319 | 1,911 | -18% |
| 20ft refrigerated | 322 | 245 | 243 | 160 | -34% |

*Data updated to reflect all 6 participating ocean carriers.

Location Specific Container Availability Analysis

AMS now offers location specific container availability analysis for each of OSCAR's 18 reported locations. Over the past 2 weeks, AMS highlighted the Chicago and Kansas City markets; this week we continue with Minneapolis. These additional analyses deliver a historical overview of OSCAR data.

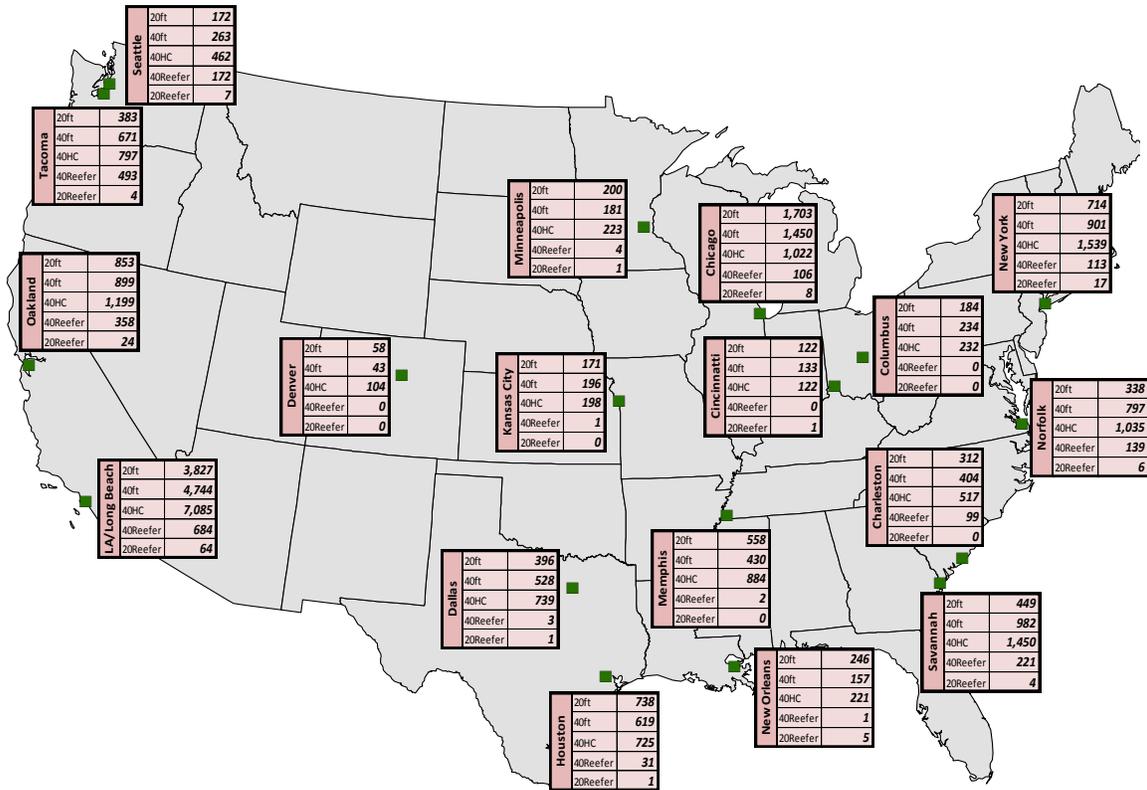

U.S. containerized agricultural exporters used Minneapolis to move nearly 117,000 metric tons of cargo between August and December last year. This year will probably be higher with the forecast record harvest underway. Approximately 75 percent of agricultural exports moving through Minneapolis were grain products and exports of hides and dairy products. Container availability is typically challenging for exporters in Minneapolis because of the relatively low level of import container traffic through the area. Since early October, 40ft dry containers have been more available than 20ft dry and 40ft high-cube containers. However, over the past couple of weeks availability of 40ft high-cube containers has been increasing and that of 40ft and 20ft dry containers have been falling. Projections over the next 2 weeks show availability falling for all three dry container types. See figure below.

Weekly Container Availability Estimates in Minneapolis 2nd week of August (Wk 32) through 2nd week of November (Wk 46), 2013 with Projections

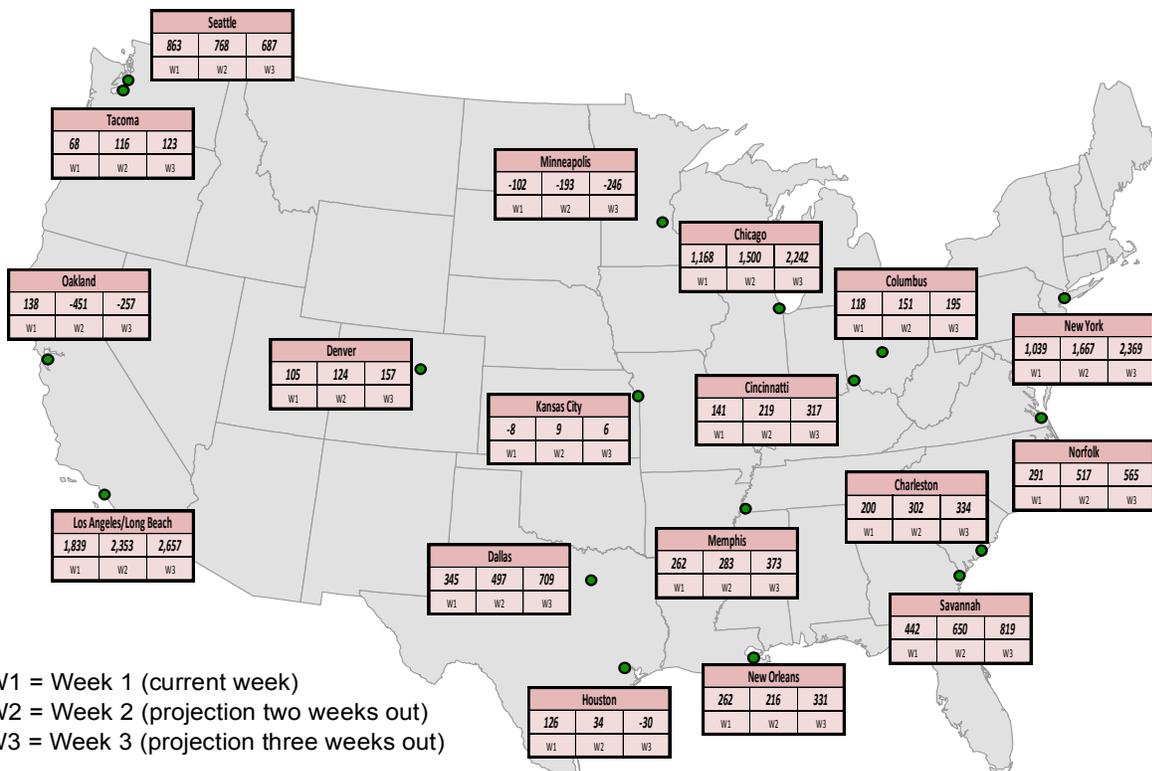

Six-Month Snapshot of Average Weekly Throughput

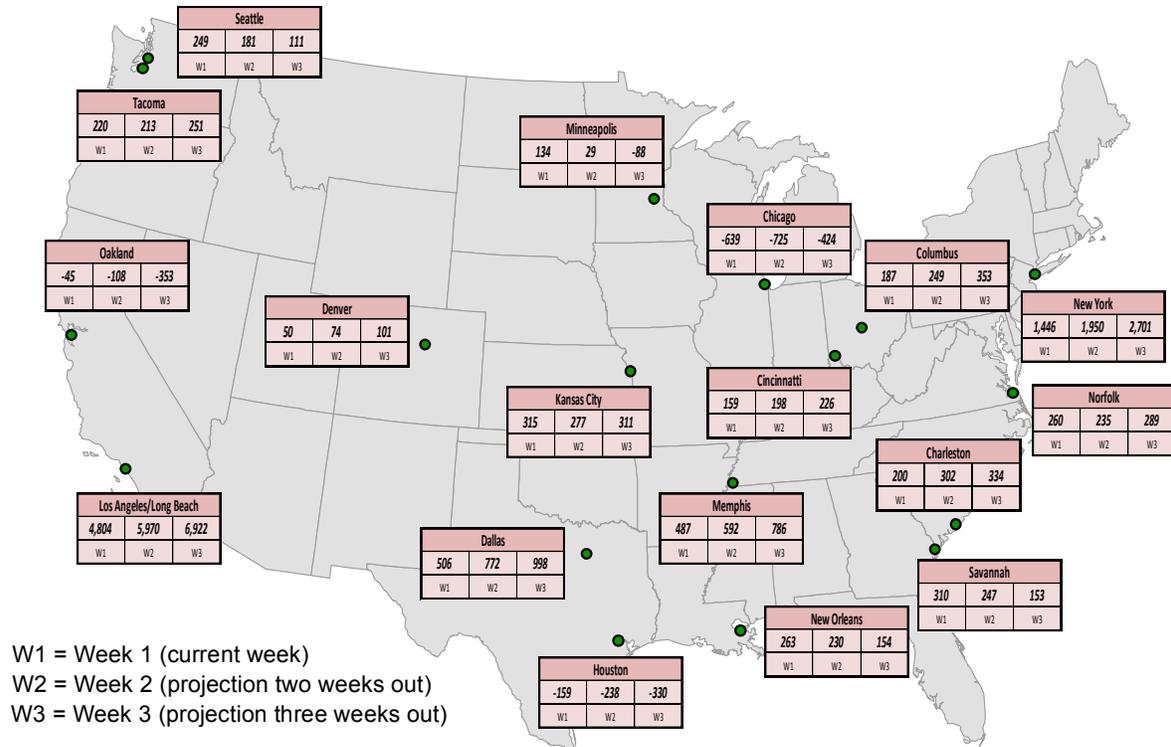

Average Weekly Availability for 20ft Dry Containers

Understanding this Report

The weekly Ocean Shipping Container Availability Report (OCSAR) provides a snapshot of container availability for westbound transpacific trade lanes at select intermodal locations around the country. The data presented in this report are gathered from the 6 member carriers in the Transpacific Stabilization Agreement (WTSA). The TSA carriers include COSCO, Evergreen, Hanjin Shipping, Hapag Lloyd, Yang Ming Transport Corporation, and OOCL.

- The data are estimates of container availability per week by the participating carriers. The carriers determine container availability by comparing current supplies at each of the 18 intermodal locations with the demand for these containers based on up-to-date bookings or reservation information in the westbound transpacific trade lane.
- Each week, participating carriers report the estimated number of containers available for the current week (W1) as well as estimates for the subsequent 2 weeks (W2 and W3).
- Maps on pages 3–5 offer a national overview of weekly container availability, as well as an average of availability over the past 6 months. The weekly national data are derived from the sum of the individual carrier responses at each intermodal location.
- Individual carrier responses are presented by location on pages 6–23 and have been sorted from largest to smallest. To maintain carrier confidentiality, specific carrier identification is not provided.
- Carrier responses showing negative numbers, such as -29, should be interpreted as meaning that 29 containers are needed by shippers but the carrier is not able to supply them. A positive number, such as 64, would mean 64 containers are available that are not demanded. An indication of 0 means the carriers have the exact amount of containers needed based on current supply and demand estimates.
- In addition to the weekly container availability data, the participating carriers provide average weekly throughput data for the past 6 months. These data help readers understand the aggregate flow of containers that have moved through the 18 select locations by the 8 participating carriers over the previous 6 months. These data will only be updated every 6 months.
- Availability levels are subject to change, and may be affected by delays in return of equipment to carriers by shippers or consignees, and by free time restrictions imposed by railroads. Due to the dynamic nature of the container industry, carriers cannot be held responsible for the level of availability at the time of inquiry.
- Data presented in the report do not imply availability of chassis.
- Container availability estimates represent availability for all export cargo, not just agricultural products.
- USDA collects these data on a voluntary basis and cannot be held responsible for the status of container availability when a reader makes inquiry with an ocean carrier. USDA relies on the participating ocean carriers to ensure the data is accurate.
- Terminology:
 - 20ft Dry Container (20ft): A standard shipping container that is 20 feet long.
 - 40ft Dry Container (40ft): A standard shipping container that is 40 feet long.
 - 40ft High-Cube (HC): A shipping container which is 40 feet long and 9 feet, 6 inches tall (1 foot taller than a standard 40ft dry container).
 - 40ft reefer: A refrigerated shipping container which is 40 feet long.
 - 20ft reefer: A refrigerated shipping container which is 20 feet long.
 - Chassis: A wheeled frame to which a shipping container can be locked for storage or movement. (Plural chassis)

The U.S. Department of Agriculture (USDA) prohibits discrimination against its customers, employees, and applicants for employment on the bases of race, color, national origin, age, disability, sex, gender identity, religion, reprisal, and where applicable, political beliefs, marital status, familial or parental status, sexual orientation, or all or part of an individual's income is derived from any public assistance program, or protected genetic information in employment or in any program or activity conducted or funded by the Department. (Not all prohibited bases will apply to all programs and/or employment activities.)

If you wish to file an employment complaint, you must contact your agency's EEO Counselor (PDF) within 45 days of the date of the alleged discriminatory act, event, or in the case of a personnel action. Additional information can be found online at http://www.ascr.usda.gov/complaint_filing_file.html. If you wish to file a Civil Rights program complaint of discrimination, complete the USDA Program Discrimination Complaint Form (PDF), found online at http://www.ascr.usda.gov/complaint_filing_cust.html, or at any USDA office, or call (866) 632-9992 to request the form. You may also write a letter containing all of the information requested in the form. Send your completed complaint form or letter to us by mail at U.S. Department of Agriculture, Director, Office of Adjudication, 1400 Independence Avenue, S.W., Washington, D.C. 20250-9410, by fax (202) 690-7442 or email at program.intake@usda.gov.

Individuals who are deaf, hard of hearing or have speech disabilities and you wish to file either an EEO or program complaint please contact USDA through the Federal Relay Service at (800) 877-8339 or (800) 845-6136 (in Spanish). Persons with disabilities who wish to file a program complaint, please see information above on how to contact us by mail directly or by email. If you require alternative means of communication for program information (e.g., Braille, large print, audiotape, etc.) please contact USDA's TARGET Center at (202) 720-2600 (voice and TDD).

For any other information not pertaining to civil rights, please refer to the listing of the USDA Agencies and Offices for specific agency information.
