Mr. Summers,

Cooperative Milk Producers is a small dairy cooperative located in Virginia. We are members of National Milk Producers Association and have been involved in the work to present an updated comprehensive proposal on Federal Orders changes.

We understand that our proposal will be forthcoming to USDA in April. We would certainly urge USDA to consider our proposal and approach rather than the IDFA proposal that we understand addresses just one particular issue. We understand that their issue of "Make Allowances" is their main focus. That issue is important to us and is included in our proposal for changes. Please consider our entire package when deciding on the necessity of a Hearing and the issues to be addressed at a Hearing. Thank you for your attention to this matter.

Michael Myatt
