<sup>1</sup> Federal Orders 5, 6, 7, 33, 124, 126, and 131 were only able to provide this data for pooled pounds. Federal Order 1 pounds are based on verified producer payroll data. Federal Orders 30 and 32 reported on all milk associated with pool eligible producers.

<sup>2</sup> The small business definition was interpreted as 315,000 pounds based on dividing the \$750,000 definitional limit by the simple average of the NASS Annual All-Milk price for 2010 - 2014.
