

Measures of Growth In Federal Orders

United States Department of Agriculture

Agricultural Marketing Service

Dairy Program

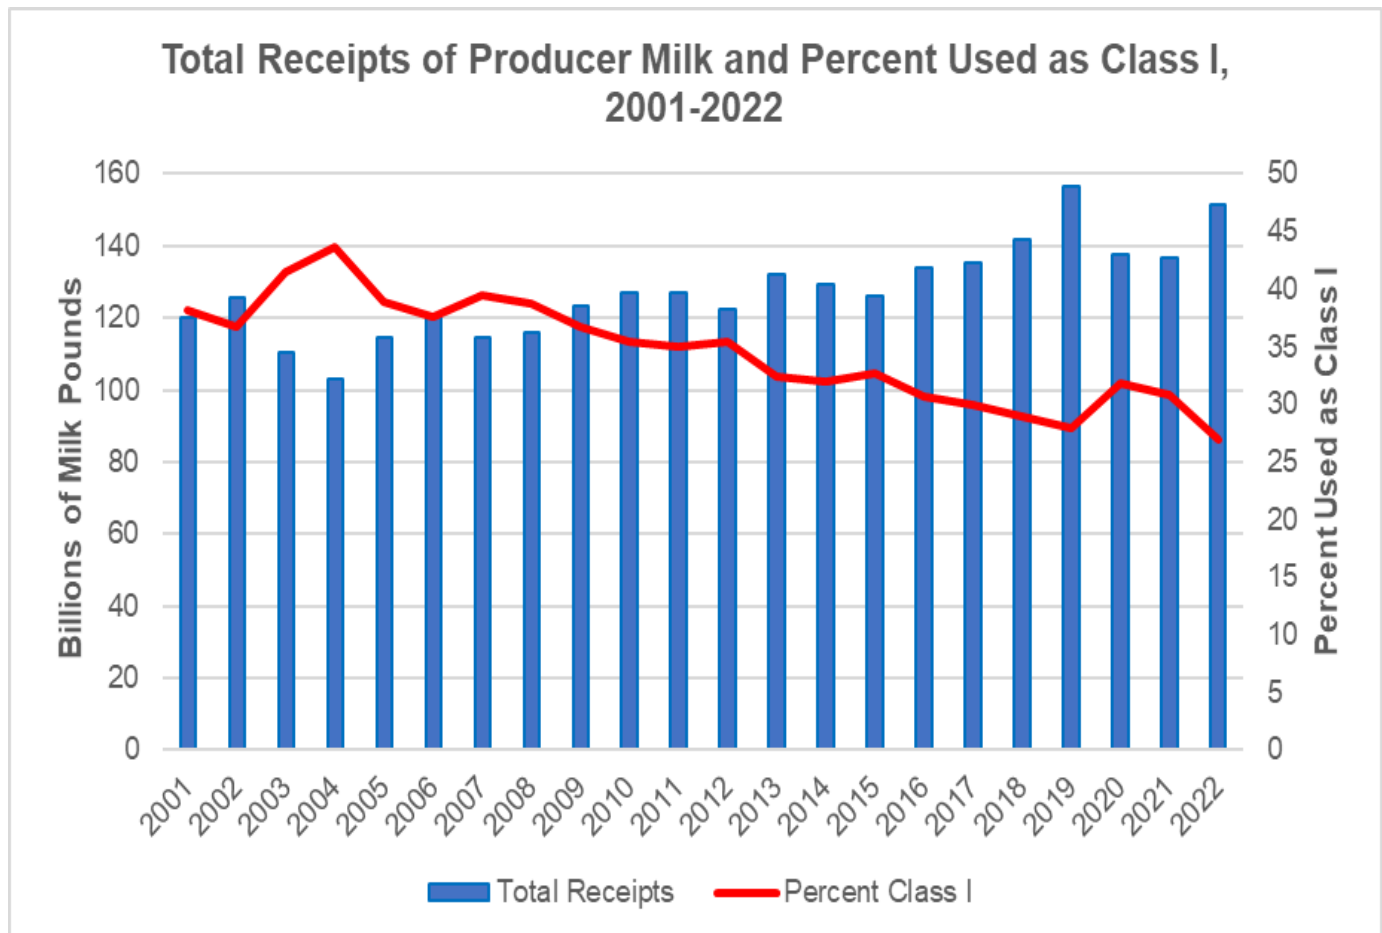

Market Information Branch

MGFMO-2022

May 17, 2023

2022 Highlights

Total Receipts of milk pooled under Federal Milk Marketing Orders totaled 151.6 billion pounds marketed by 23,108 dairy producers across all Federal orders in 2022. Total receipts were 10.8 percent higher than 2021. Pooled producer numbers were 0.8 percent lower than 2021. The average daily delivery of producer milk per pooled producer was 11.9 percent higher compared to 2021. In 2022, milk marketed through Federal orders accounted for 67 percent of all milk sold and 68 percent of fluid grade milk sold to U.S. plants and milk dealers.

* Revised. NA - Data not available. ¹ 2018 includes November and December data from the California Federal Milk Marketing Order which became effective November 1, 2018.

Methodology: Growth in Federal Milk Order Markets

Data: The Measures of Growth in Federal milk order markets is created using information on the handling of milk obtained from Federal milk marketing order personnel.

The number of Federal order markets and the number of handlers is at year end.

The annual number of pooled producers is the simple average number of producers pooled each month during that year.

The population of Federal milk marketing areas is obtained from published *U.S. Census Annual Estimates of the Resident Population for Counties* in U.S. Census years (1950, 1960, 1970, 1980, 1990, 2000, 2010, and 2020). Annual Federal order county populations are estimated by the Census Bureau for Federal order counties for the years between each U.S. Census.

The receipts of producer milk and producer milk used in Class I reflects millions of pounds. Beginning in 1990, due to disadvantageous price situations in some markets, regulated handlers elected not to pool milk that normally would have been associated with the order. This has reduced, sometimes substantially, the volume of producer milk receipts reported for some markets. This can also affect significantly the comparability of other "Measures of Growth" based on this statistic.

The percent used as Class I is the percentage of all milk pooled that is used to produce Class I fluid products as defined by the Code of Federal Regulation (CFR 1000.15).

The percentage of all milk sold is the amount of producer milk pooled on Federal orders as a percentage of the total amount of milk sold to U.S. plants and dealers, both as fluid grade (Grade A) and all milk sold. The amount of milk sold to U.S. plants and dealers is obtained from the USDA National Agricultural Statistics Service *Milk Production, Disposition, and Income*, 2022 Summary, ISSN: 1949-1506, issued April, 2023.

The milk price at 3.5% butterfat content is the weighted average Federal order minimum regulated milk price for milk at a standardized 3.5% butterfat content. Milk prices are simple averages for 1950-65 and weighted averages for 1970 to date. Milk prices are based on the blend (uniform) price adjusted for the butterfat content, and starting in 1990, other milk components of producer milk.

The average daily delivery of milk per producer is calculated by dividing producer receipts by the number of producers pooled. The annual average is the average of the monthly averages.

The annual gross value of receipts of producer milk per producer is calculated by dividing the total value of all pooled milk as reported by the Market Administrators divided by the simple average of the number of producers pooled each month during the year.

The annual gross value of all receipts of producer milk is the total value of all milk pooled for each respective year as reported by the Market Administrators.

Reliability: The AMS audit staff periodically perform on-site audits on the amounts of producer milk pooled to ensure accurate reporting of pool, utilization, and price information.

Information Contacts

Listed below are the specialists in the Agricultural Marketing Service, Dairy Program, Market Information Branch to contact for additional information. E-mail inquiries may be sent to dpp@ams.usda.gov.

In accordance with Federal civil rights law and U.S. Department of Agriculture (USDA) civil rights regulations and policies, the USDA, its Agencies, offices, and employees, and institutions participating in or administering USDA programs are prohibited from discriminating based on race, color, national origin, religion, sex, gender identity (including gender expression), sexual orientation, disability, age, marital status, family/parental status, income derived from a public assistance program, political beliefs, or reprisal or retaliation for prior civil rights activity, in any program or activity conducted or funded by USDA (not all bases apply to all programs). Remedies and complaint filing deadlines vary by program or incident. Persons with disabilities who require alternative means of communication for program information (e.g., Braille, large print, audiotape, American Sign Language, etc.) should contact the responsible Agency or USDA's TARGET Center at (202) 720-2600 (voice and TTY) or contact USDA through the Federal Relay Service at (800) 877-8339. Additionally, program information may be made available in languages other than English. To file a program discrimination complaint, complete the USDA Program Discrimination Complaint Form, AD-3027, found online at [How to File a Program Discrimination Complaint](#) and at any USDA office or write a letter addressed to USDA and provide in the letter all of the information requested in the form. To request a copy of the complaint form, call (866) 632-9992. Submit your completed form or letter to USDA by: (1) mail: U.S. Department of Agriculture, Office of the Assistant Secretary for Civil Rights, 1400 Independence Avenue, SW, Washington, D.C. 20250-9410; (2) fax: (202) 690-7442; or (3) email: program.intake@usda.gov.
