PART 1001--MILK IN THE NORTHEAST MARKETING AREA
Subpart--Order Regulating Handling

GENERAL PROVISIONS

SEC.
1001.1 General provisions.

DEFINITIONS

1001.2 Northeast marketing area.
1001.3 Route disposition.
1001.4 Plant.
1001.5 Distributing plant.
1001.6 Supply plant.
1001.7 Pool plant.
1001.8 Nonpool plant.
1001.9 Handler.
1001.10 Producer-handler.
1001.11 [Reserved]
1001.12 Producer.
1001.13 Producer milk.
1001.14 Other source milk.
1001.15 Fluid milk product.
1001.16 Fluid cream product.
1001.17 [Reserved]
1001.18 Cooperative association.
1001.19 Commercial food processing establishment.

HANDLER REPORTS

1001.30 Reports of receipts and utilization.
1001.31 Payroll reports.
1001.32 Other reports.

CLASSIFICATION OF MILK

1001.40 Classes of utilization.
1001.41 [Reserved]
1001.42 Classification of transfers and diversions.
1001.43 General classification rules.
1001.44 Classification of producer milk.
1001.45 Market administrator's reports and announcements concerning classification.

CLASS PRICES

1001.50 Class prices, component prices, and advanced pricing factors.
1001.51 Class I differential and price.
1001.52 Adjusted Class I differentials.
1001.53 Announcement of class prices, component prices, and
advanced pricing factors.
1001.54 Equivalent price.

PRODUCER PRICE DIFFERENTIAL
1001.60 Handler's value of milk.
1001.61 Computation of producer price differential.
1001.62 Announcement of producer prices.

PAYMENTS FOR MILK
1001.70 Producer-settlement fund.
1001.71 Payments to the producer-settlement fund.
1001.72 Payments from the producer-settlement fund.
1001.73 Payments to producers and to cooperative associations.
1001.74 [Reserved]
1001.75 Plant location adjustments for producer milk and nonpool milk.
1001.76 Payments by a handler operating a partially regulated distributing plant.
1001.77 Adjustment of accounts.
1001.78 Charges on overdue accounts.

ADMINISTRATIVE ASSESSMENT AND MARKETING SERVICE DEDUCTION
1001.85 Assessment for order administration.
1001.86 Deduction for marketing services.

Subpart--Order Regulating Handling
GENERAL PROVISIONS

§ 1001.1 General provisions.
The terms, definitions, and provisions in part 1000 of this chapter apply to this part 1001. In this part 1001, all references to sections in part 1000 refer to part 1000 of this chapter.

DEFINITIONS

§ 1001.2 Northeast marketing area.
The marketing area means all the territory within the bounds of the following states and political subdivisions, including all piers, docks and wharves connected therewith and all craft moored thereat, and all territory occupied by government (municipal, State or Federal) reservations, installations, institutions, or other similar establishments if any part thereof is within any of the listed states or political subdivisions:
Connecticut, Delaware, Massachusetts, New Hampshire, New Jersey, Rhode Island, Vermont and District of Columbia
All of the States of Connecticut, Delaware, Massachusetts, New Hampshire, New Jersey, Rhode Island, Vermont and the District of Columbia.
Maryland Counties

All of the State of Maryland except the counties of Allegany and Garrett.

New York Counties, Cities, and Townships

All counties within the State of New York except Allegany, Cattaraugus, Chautauqua, Erie, Genessee, Livingston, Monroe, Niagara, Ontario, Orleans, Seneca, Wayne, and Wyoming; the townships of Conquest, Montezuma, Sterling and Victory in Cayuga County; the city of Hornell, and the townships of Avoca, Bath, Bradford, Canisteo, Cohocton, Dansville, Fremont, Pulteney, Hartsville, Hornellsville, Howard, Prattsburg, Urbana, Wayland, Wayne and Wheeler in Steuben County; and the townships of Italy, Middlesex, and Potter in Yates County.

Pennsylvania Counties

Adams, Bucks, Chester, Cumberland, Dauphin, Delaware, Franklin, Fulton, Juniata, Lancaster, Lebanon, Montgomery, Perry, Philadelphia, and York.

Virginia Counties and Cities

§ 1001.3 Route disposition.

See § 1000.3.

§ 1001.4 Plant.

(a) Except as provided in paragraph (b) of this section, plant means the land, buildings, facilities, and equipment constituting a single operating unit or establishment at which milk or milk products are received, processed, or packaged, including a facility described in paragraph (b)(2) of this section if the facility receives the milk of more than one dairy farmer.

(b) Plant shall not include:

(1) A separate building without stationary storage tanks that is used only as a reload point for transferring bulk milk from one tank truck to another or a separate building used only as a distribution point for storing packaged fluid milk products in transit for route disposition;

(2) An on-farm facility operated as part of a single dairy farm entity for the separation of cream and skim milk or the removal of water from milk; or

(3) Bulk reload points where milk is transferred from one tank truck to another while en route from dairy farmers’ farms to a plant. If stationary storage tanks are used for transferring milk at the premises, the operator of the facility shall make an advance written request to the market administrator that the facility shall be treated as a reload point. The cooling of milk, collection of samples, and washing and sanitizing of tank trucks at the premises
shall not disqualify it as a bulk reload point.

§ 1001.5 Distributing plant.

See § 1000.5.

§ 1001.6 Supply plant.

See § 1000.6.

§ 1001.7 Pool plant.

Pool plant means a plant, unit of plants, or system of plants as specified in paragraphs (a) through (f) of this section, but excluding a plant described in paragraph (h) of this section. The pooling standards described in paragraphs (c) and (f) of this section are subject to modification pursuant to paragraph (g) of this section.

(a) A distributing plant, other than a plant qualified as a pool plant pursuant to paragraph (b) of this section or § ----.7(b) of any other Federal milk order, from which during the month 25 percent or more of the total quantity of fluid milk products physically received at the plant (excluding concentrated milk received from another plant by agreement for other than Class I use) are disposed of as route disposition or are transferred in the form of packaged fluid milk products to other distributing plants. At least 25 percent of such route disposition and transfers must be to outlets in the marketing area.

(b) Any distributing plant located in the marketing area which during the month processed at least 25 percent of the total quantity of fluid milk products physically received at the plant (excluding concentrated milk received from another plant by agreement for other than Class I use) into ultra-pasteurized or aseptically-processed fluid milk products.

(c) A supply plant from which fluid milk products are transferred or diverted to plants described in paragraph (a) or (b) of this section subject to the additional conditions described in this paragraph. In the case of a supply plant operated by a cooperative association handler described in § 1000.9(c), fluid milk products that the cooperative delivers to pool plants directly from producers’ farms shall be treated as if transferred from the cooperative association’s plant for the purpose of meeting the shipping requirements of this paragraph.

(1) During the months of August and December, such shipments must equal not less than 10 percent of the total quantity of milk that is received at the plant or diverted from it pursuant to § 1001.13 during the month;

(2) During the months of September through November, such shipments must equal not less than 20 percent of the total quantity of milk that is received at the plant or diverted from it pursuant to
§ 1001.13 during the month;

(3) A plant which meets the shipping requirements of this paragraph during each of the months of August through December shall be a pool plant during the following months of January through July unless the milk received at the plant fails to meet the requirements of a duly constituted regulatory agency, the plant fails to meet a shipping requirement instituted pursuant to paragraph (f) of this section, or the plant operator requests nonpool status for the plant. The shipping requirement for any plant which has not met the requirements of paragraphs (c)(1) and (c)(2) of this section must equal not less than 10 percent of the total quantity of milk that is received at the plant or diverted from it pursuant to § 1001.13 during each of the months of January through July in order for the plant to be a pool plant in each of those months;

(4) If milk is delivered directly from producers’ farms that are located outside of the states included in the marketing area or outside Maine or West Virginia, such producers must be grouped by state into reporting units and each reporting unit must independently meet the shipping requirements of this paragraph; and

(5) Concentrated milk transferred from the supply plant to a distributing plant for an agreed-upon use other than Class I shall be excluded from the supply plant’s shipments in computing the percentages in paragraphs (c)(1) and (2) of this section.

d) [Reserved]

e) Two or more plants that are located in the marketing area and operated by the same handler may qualify as a unit by meeting the total and in-area route distribution requirements specified in paragraph (a) of this section subject to the following additional requirements:

(1) At least one of the plants in the unit qualifies as a pool plant pursuant to paragraph (a) of this section;

(2) Other plants in the unit must process only Class I or Class II products and must be located in a pricing zone providing the same or a lower Class I price than the price applicable at the distributing plant included in the unit; and

(3) A written request to form a unit, or to add or remove plants from a unit, or to cancel a unit, must be filed with the market administrator prior to the first day of the month for which unit formation is to be effective.

f) Two or more supply plants operated by the same handler, or by one or more cooperative associations, may qualify for pooling as a system of plants by meeting the applicable percentage requirements of paragraph (c) of this section in the same manner as a single plant subject to the following additional requirements:

(1) A supply plant system will be effective for the period of August 1 through July 31 of the following year. Written notification must be given to the market administrator listing the plants to be
included in the system prior to the first day of July preceding the effective date of the system. The plants included in the system shall be listed in the sequence in which they shall qualify for pool plant status based on the minimum deliveries required. If the deliveries made are insufficient to qualify the entire system for pooling, the last listed plant shall be excluded from the system, followed by the plant next-to-last on the list, and continuing in this sequence until remaining listed plants have met the minimum shipping requirements; and

(2) Each plant that qualifies as a pool plant within a system shall continue each month as a plant in the system through the following July unless the plant subsequently fails to qualify for pooling, the handler submits a written notification to the market administrator prior to the first day of the month that the plant be deleted from the system, or that the system be discontinued. Any plant that has been so deleted from the system, or that has failed to qualify as a pool plant in any month, will not be part of the system for the remaining months through July. For any system that qualifies in August, no plant may be added in any subsequent month through the following July unless the plant replaces another plant in the system that has ceased operations and the market administrator is notified of such replacement prior to the first day of the month for which it is to be effective.

(g) The applicable shipping percentages of paragraphs (c) and (f) of this section may be increased or decreased by the market administrator if the market administrator finds that such adjustment is necessary to encourage needed shipments or to prevent uneconomic shipments. Before making such a finding, the market administrator shall investigate the need for adjustment either on the market administrator’s own initiative or at the request of interested parties if the request is made in writing at least 15 days prior to the month for which the requested revision is desired effective. If the investigation shows that an adjustment of the shipping percentages might be appropriate, the market administrator shall issue a notice stating that an adjustment is being considered and invite data, views and arguments. Any decision to revise an applicable shipping percentage must be issued in writing at least one day before the effective date.

(h) The term pool plant shall not apply to the following plants:

(1) A producer-handler plant;

(2) An exempt plant as defined in § 1000.8(e);

(3) A plant qualified pursuant to paragraph (a) of this section that is located within the marketing area if the plant also meets the pooling requirements of another Federal order and more than 50 percent of its route distribution has been in such other Federal order marketing area for 3 consecutive months;
(4) A plant qualified pursuant to paragraph (a) of this section which is not located within any Federal order marketing area that meets the pooling requirements of another Federal order and has had greater route disposition in such other Federal order’s marketing area for 3 consecutive months;

(5) A plant qualified pursuant to paragraph (a) of this section that is located in another Federal order marketing area if the plant meets the pooling requirements of such other Federal order and does not have a majority of its route distribution in this marketing area for 3 consecutive months or if the plant is required to be regulated under such other Federal order without regard to its route disposition in any other Federal order marketing area;

(6) A plant qualified pursuant to paragraph (c) of this section which also meets the pooling requirements of another Federal order and from which greater qualifying shipments are made to plants regulated under the other Federal order than are made to plants regulated under the order in this part, or the plant has automatic pooling status under the other Federal order; and

(7) That portion of a pool plant designated as a “nonpool plant” that is physically separate and operated separately from the pool portion of such plant. The designation of a portion of a regulated plant as a nonpool plant must be requested in writing by the handler and must be approved by the market administrator.

§ 1001.8 Nonpool plant.
See § 1000.8.

§ 1001.9 Handler.
See § 1000.9.

§ 1001.10 Producer-handler.
Producer-handler means a person who:

(a) Operates a dairy farm and a distributing plant from which there is monthly route disposition in the marketing area during the month;

(b) Receives milk solely from own farm production or receives milk that is fully subject to the pricing and pooling provisions of this or any other Federal order;

(c) Receives at its plant or acquires for route disposition no more than 150,000 pounds of fluid milk products from handlers fully regulated under any Federal order. This limitation shall not apply if the producer-handler’s own farm production is less than 150,000 pounds during the month;

(d) Disposes of no other source milk as Class I milk except by increasing the nonfat milk solids content of the fluid milk products; and

(e) Provides proof satisfactory to the market administrator
that the care and management of the dairy animals and other resources necessary to produce all Class I milk handled (excluding receipts from handlers fully regulated under any Federal order) and the processing and packaging operations are the producer-handler’s own enterprise and at its own risk.

§ 1001.11 [Reserved]

§ 1001.12 Producer.

(a) Except as provided in paragraph (b) of this section, producer means any person who produces milk approved by a duly constituted regulatory agency for fluid consumption as Grade A milk and whose milk (or components of milk) is:

(1) Received at a pool plant directly from the producer or diverted by the plant operator in accordance with § 1001.13; or

(2) Received by a handler described in § 1000.9(c).

(b)Producer shall not include a dairy farmer described in paragraphs (b)(1) through (6) of this section. A dairy farmer described in paragraphs (b)(5) or (6) of this section shall be known as a dairy farmer for other markets.

(1) A producer-handler as defined in any Federal order;

(2) A dairy farmer whose milk is received at an exempt plant, excluding producer milk diverted to the exempt plant pursuant to § 1001.13(d);

(3) A dairy farmer whose milk is received by diversion at a pool plant from a handler regulated under another Federal order if the other Federal order designates the dairy farmer as a producer under that order and that milk is allocated by request to a utilization other than Class I;

(4) A dairy farmer whose milk is reported as diverted to a plant fully regulated under another Federal order with respect to that portion of the milk so diverted that is assigned to Class I under the provisions of such other order;

(5) For any month of December through June, any dairy farmer whose milk is received at a pool plant or by a cooperative association handler described in § 1000.9(c) if the pool plant operator or the cooperative association caused milk from the same farm to be delivered to any plant as other than producer milk, as defined under the order in this part or any other Federal milk order, during the same month, either of the 2 preceding months, or during any of the preceding months of July through November; and

(6) For any month of July through November, any dairy farmer whose milk is received at a pool plant or by a cooperative association handler described in § 1000.9(c) if the pool plant operator or the cooperative association caused milk from the same farm to be delivered to any plant as other than producer milk, as defined under the order in this part or any other Federal milk order,
during the same month.

§ 1001.13 Producer milk.

*Producer milk* means the skim milk (or the skim equivalent of components of skim milk) and butterfat contained in milk of a producer that is:

(a) Received by the operator of a pool plant directly from a producer or from a handler described in § 1000.9(c). Any milk which is picked up from the producer’s farm in a tank truck under the control of the operator of a pool plant or a handler described in § 1000.9(c) but which is not received at a plant until the following month shall be considered as having been received by the handler during the month in which it is picked up at the farm. All milk received pursuant to this paragraph shall be priced at the location of the plant where it is first physically received;

(b) Received by the operator of a pool plant or a handler described in § 1000.9(c) in excess of the quantity delivered to pool plants subject to the following conditions:

1. The producers whose farms are outside of the states included in the marketing area and outside the states of Maine or West Virginia shall be organized into state units and each such unit shall be reported separately; and

2. For pooling purposes, each reporting unit must satisfy the shipping standards specified for a supply plant pursuant to § 1001.7(c);

(c) Diverted by a proprietary pool plant operator to another pool plant. Milk so diverted shall be priced at the location of the plant to which diverted; or

(d) Diverted by the operator of a pool plant or by a handler described in § 1000.9(c) to a nonpool plant, subject to the following conditions:

1. Milk of a dairy farmer shall not be eligible for diversion unless milk of such dairy farmer was physically received as producer milk at a pool plant and the dairy farmer has continuously retained producer status since that time. If a dairy farmer loses producer status under the order in this part (except as a result of a temporary loss of Grade A approval), the dairy farmer’s milk shall not be eligible for diversion until milk of the dairy farmer has been physically received as producer milk at a pool plant; and

2. Diverted milk shall be priced at the location of the plant to which diverted.

§ 1001.14 Other source milk.

See § 1000.14.

§ 1001.15 Fluid milk product.

See § 1000.15.
§ 1001.16  Fluid cream product.
  See § 1000.16.

§ 1001.17  [Reserved]

§ 1001.18  Cooperative association.
  See § 1000.18.

§ 1001.19  Commercial food processing establishment.
  See § 1000.19.

HANDLER REPORTS

§ 1001.30  Reports of receipts and utilization.
  Each handler shall report monthly so that the market administrator’s office receives the report on or before the 9th day after the end of the month, in the detail and on prescribed forms, as follows:
  (a) Each pool plant operator shall report for each of its operations the following information:
    (1) Product pounds, pounds of butterfat, pounds of protein, and pounds of nonfat solids other than protein (other solids) contained in or represented by:
      (i) Receipts of producer milk, including producer milk diverted by the reporting handler, from sources other than handlers described in § 1000.9(c); and
      (ii) Receipts of milk from handlers described in § 1000.9(c);
    (2) Product pounds and pounds of butterfat contained in:
      (i) Receipts of fluid milk products and bulk fluid cream products from other pool plants;
      (ii) Receipts of other source milk; and
      (iii) Inventories at the beginning and end of the month of fluid milk products and bulk fluid cream products;
    (3) The utilization or disposition of all milk and milk products required to be reported pursuant to this paragraph; and
    (4) Such other information with respect to the receipts and utilization of skim milk, butterfat, milk protein, and other nonfat solids as the market administrator may prescribe.
  (b) Each handler operating a partially regulated distributing plant shall report with respect to such plant in the same manner as prescribed for reports required by paragraph (a) of this section. Receipts of milk that would have been producer milk if the plant had been fully regulated shall be reported in lieu of producer milk. The report shall show also the quantity of any reconstituted skim milk in route disposition in the marketing area.
  (c) Each handler described in § 1000.9(c) shall report:
    (1) The product pounds, pounds of butterfat, pounds of protein, and the pounds of solids-not-fat other than protein (other
solids) contained in receipts of milk from producers; and
(2) The utilization or disposition of such receipts.
(d) Each handler not specified in paragraph (a) or (b) of this section shall report with respect to its receipts and utilization of milk and milk products in such manner as the market administrator may prescribe.

§ 1001.31 Payroll reports.
(a) On or before the 22nd day after the end of each month, each handler that operates a pool plant pursuant to § 1001.7 and each handler described in § 1000.9(c) shall report to the market administrator its producer payroll for the month, in detail prescribed by the market administrator, showing for each producer the information specified in § 1001.73(e).
(b) Each handler operating a partially regulated distributing plant who elects to make payment pursuant to § 1000.76(b) shall report for each dairy farmer who would have been a producer if the plant had been fully regulated in the same manner as prescribed for reports required by paragraph (a) of this section.

§ 1001.32 Other reports.
In addition to the reports required pursuant to §§ 1001.30 and 1001.31, each handler shall report any information the market administrator deems necessary to verify or establish each handler’s obligation under the order.

CLASSIFICATION OF MILK

§ 1001.40 Classes of utilization.
See § 1000.40.

§ 1001.41 [Reserved]

§ 1001.42 Classification of transfers and diversions.
See § 1000.42.

§ 1001.43 General classification rules.
See § 1000.43.

§ 1001.44 Classification of producer milk.
See § 1000.44.

§ 1001.45 Market administrator’s reports and announcements concerning classification.
See § 1000.45.

CLASS PRICES

§ 1001.50 Class prices, component prices, and advanced pricing
§ 1001.51 Class I differential and price.
The Class I differential shall be the differential established for Suffolk County, Massachusetts, which is reported in § 1000.52. The Class I price shall be the price computed pursuant to § 1000.50(a) for Suffolk County, Massachusetts.

§ 1001.52 Adjusted Class I differentials.
See § 1000.52.

§ 1001.53 Announcement of class prices, component prices, and advanced pricing factors.
See § 1000.53.

§ 1001.54 Equivalent price.
See § 1000.54.

PRODUCER PRICE DIFFERENTIAL
§ 1001.60 Handler's value of milk.
For the purpose of computing a handler’s obligation for producer milk, the market administrator shall determine for each month the value of milk of each handler with respect to each of the handler's pool plants and of each handler described in § 1000.9(c) with respect to milk that was not received at a pool plant by adding the amounts computed in paragraphs (a) through (h) of this section and subtracting from that total amount the value computed in paragraph (i) of this section. Unless otherwise specified, the skim milk, butterfat, and the combined pounds of skim milk and butterfat referred to in this section shall result from the steps set forth in § 1000.44(a), (b), and (c), respectively, and the nonfat components of producer milk in each class shall be based upon the proportion of such components in producer skim milk. Receipts of nonfluid milk products that are distributed as labeled reconstituted milk for which payments are made to the producer-settlement fund of another Federal order under § 1000.76(a)(4) or (d) shall be excluded from pricing under this section.

(a) Class I value.
   (1) Multiply the pounds of skim milk in Class I by the Class I skim milk price; and
   (2) Add an amount obtained by multiplying the pounds of butterfat in Class I by the Class I butterfat price.

(b) Class II value.
   (1) Multiply the pounds of nonfat solids in Class II skim milk by the Class II nonfat solids price; and
   (2) Add an amount obtained by multiplying the pounds of
butterfat in Class II times the Class II butterfat price.

(c) Class III value.
   (1) Multiply the pounds of protein in Class III skim milk by the protein price;
   (2) Add an amount obtained by multiplying the pounds of other solids in Class III skim milk by the other solids price; and
   (3) Add an amount obtained by multiplying the pounds of butterfat in Class III by the butterfat price.

(d) Class IV value.
   (1) Multiply the pounds of nonfat solids in Class IV skim milk by the nonfat solids price; and
   (2) Add an amount obtained by multiplying the pounds of butterfat in Class IV by the butterfat price.

(e) Multiply the pounds of skim milk and butterfat overage assigned to each class pursuant to § 1000.44(a)(11) and the corresponding step of § 1000.44(b) by the skim milk prices and butterfat prices applicable to each class.

(f) Multiply the difference between the current month’s Class I, II, or III price, as the case may be, and the Class IV price for the preceding month by the hundredweight of skim milk and butterfat subtracted from Class I, II, or III, respectively, pursuant to § 1000.44(a)(7) and the corresponding step of § 1000.44(b);

(g) Multiply the difference between the Class I price applicable at the location of the pool plant and the Class IV price by the hundredweight of skim milk and butterfat assigned to Class I pursuant to § 1000.43(d) and the hundredweight of skim milk and butterfat subtracted from Class I pursuant to § 1000.44(a)(3)(i) through (vi) and the corresponding step of § 1000.44(b), excluding receipts of bulk fluid cream products from a plant regulated under other Federal orders and bulk concentrated fluid milk products from pool plants, plants regulated under other Federal orders, and unregulated supply plants.

(h) Multiply the difference between the Class I price applicable at the location of the nearest unregulated supply plants from which an equivalent volume was received and the Class III price by the pounds of skim milk and butterfat in receipts of concentrated fluid milk products assigned to Class I pursuant to § 1000.43(d) and § 1000.44(a)(3)(i) and the corresponding step of § 1000.44(b) and the pounds of skim milk and butterfat subtracted from Class I pursuant to § 1000.44(a)(8) and the corresponding step of § 1000.44(b), excluding such skim milk and butterfat in receipts of fluid milk products from an unregulated supply plant to the extent that an equivalent amount of skim milk or butterfat disposed of to such plant by handlers fully regulated under any Federal milk order is classified and priced as Class I milk and is not used as an offset for any other payment obligation under any order.

(i) For reconstituted milk made from receipts of nonfluid milk
products, multiply $1.00 (but not more than the difference between
the Class I price applicable at the location of the pool plant and
the Class IV price) by the hundredweight of skim milk and butterfat
contained in receipts of nonfluid milk products that are allocated to
Class I use pursuant to § 1000.43(d).

§ 1001.61 Computation of producer price differential.
For each month, the market administrator shall compute a
producer price differential per hundredweight. The report of any
handler who has not made payments required pursuant to § 1001.71 for
the preceding month shall not be included in the computation of the
producer price differential, and such handler’s report shall not be
included in the computation for succeeding months until the handler
has made full payment of outstanding monthly obligations. Subject to
the conditions in this paragraph, the market administrator shall
compute the producer price differential in the following manner:
(a) Combine into one total the values computed pursuant to §
1001.60 for all handlers required to file reports prescribed in §
1001.30;
(b) Subtract the total of the values obtained by multiplying
each handler’s total pounds of protein, other solids, and butterfat
contained in the milk for which an obligation was computed pursuant
to § 1001.60 by the protein price, other solids price, and the
butterfat price, respectively;
(c) Add an amount equal to the minus location adjustments and
subtract an amount equal to the plus location adjustments computed
pursuant to § 1001.75;
(d) Add an amount equal to not less than one-half of the
unobligated balance in the producer-settlement fund;
(e) Divide the resulting amount by the sum of the following
for all handlers included in these computations:
(1) The total hundredweight of producer milk; and
(2) The total hundredweight for which a value is computed
pursuant to § 1001.60(h); and
(f) Subtract not less than 4 cents nor more than 5 cents from
the price computed pursuant to paragraph (e) of this section. The
result, rounded to the nearest cent, shall be known as the producer
price differential for the month.

§ 1001.62 Announcement of producer prices.
On or before the 13th day after the end of the month, the market
administrator shall announce the following prices and information:
(a) The producer price differential;
(b) The protein price;
(c) The nonfat solids price;
(d) The other solids price;
(e) The butterfat price;
(f) The average butterfat, protein, nonfat solids, and other solids content of producer milk; and
(g) The statistical uniform price for milk containing 3.5 percent butterfat computed by combining the Class III price and the producer price differential.

PAYMENTS FOR MILK

§ 1001.70 Producer-settlement fund.
See § 1000.70.

§ 1001.71 Payments to the producer-settlement fund.
Each handler shall make payment to the producer-settlement fund in a manner that provides receipt of the funds by the market administrator no later than the 15th day after the end of the month (except as provided in § 1000.90). Payment shall be the amount, if any, by which the amount specified in paragraph (a) of this section exceeds the amount specified in paragraph (b) of this section:
(a) The total value of milk to the handler for the month as determined pursuant to § 1001.60.
(b) The sum of:
   (1) An amount obtained by multiplying the total hundredweight of producer milk as determined pursuant to § 1000.44(c) by the producer price differential as adjusted pursuant to § 1001.75;
   (2) An amount obtained by multiplying the total pounds of protein, other solids, and butterfat contained in producer milk by the protein, other solids, and butterfat prices respectively; and
   (3) An amount obtained by multiplying the pounds of skim milk and butterfat for which a value was computed pursuant to § 1001.60(h) by the producer price differential as adjusted pursuant to § 1001.75 for the location of the plant from which received.

§ 1001.72 Payments from the producer-settlement fund.
No later than the 16th day after the end of each month (except as provided in § 1000.90), the market administrator shall pay to each handler the amount, if any, by which the amount computed pursuant to § 1001.71(b) exceeds the amount computed pursuant to § 1001.71(a). If, at such time, the balance in the producer-settlement fund is insufficient to make all payments pursuant to this section, the market administrator shall reduce uniformly such payments and shall complete the payments as soon as the funds are available.

§ 1001.73 Payments to producers and to cooperative associations.
(a) Each pool plant operator that is not paying a cooperative association for producer milk shall pay each producer as follows:
   (1) Partial payment. For each producer who has not discontinued shipments as of the 23rd day of the month, payment shall
be made so that it is received by the producer on or before the 26th
day of the month (except as provided in § 1000.90) for milk received
during the first 15 days of the month at not less than the lowest
announced class price for the preceding month, less proper deductions
authorized in writing by the producer.

(2) **Final payment.** For milk received during the month,
payment shall be made so that it is received by each producer no
later than the day after the payment date required in § 1001.72 in an
amount computed as follows:

(i) Multiply the hundredweight of producer milk received by
the producer price differential for the month as adjusted pursuant to
§ 1001.75;

(ii) Multiply the pounds of butterfat received by the
butterfat price for the month;

(iii) Multiply the pounds of protein received by the protein
price for the month;

(iv) Multiply the pounds of other solids received by the other
solids price for the month; and

(v) Add the amounts computed in paragraphs (a)(2)(i) through
(iv) of this section, and from that sum:

(A) Subtract the partial payment made pursuant to paragraph
(a)(1) of this section;

(B) Subtract the deduction for marketing services pursuant to
§ 1000.86;

(C) Add or subtract for errors made in previous payments to
the producer; and

(D) Subtract proper deductions authorized in writing by the
producer.

(b) One day before partial and final payments are due pursuant
to paragraph (a) of this section, each pool plant operator shall pay
a cooperative association for milk received as follows:

(1) **Partial payment to a cooperative association for bulk milk
received directly from producers’ farms.** For bulk milk (including
the milk of producers who are not members of such association and who
the market administrator determines have authorized the cooperative
association to collect payment for their milk) received during the
first 15 days of the month from a cooperative association in any
capacity, except as the operator of a pool plant, the payment shall
be equal to the hundredweight of milk received multiplied by the
lowest announced class price for the preceding month.

(2) **Partial payment to a cooperative association for milk
transferred from its pool plant.** For bulk milk/skimmed milk products
received during the first 15 days of the month from a cooperative
association in its capacity as the operator of a pool plant, the
partial payment shall be at the pool plant operator’s estimated use
value of the milk using the most recent class prices available at the
receiving plant’s location.
Final payment to a cooperative association for milk transferred from its pool plant. Following the classification of bulk fluid milk products and bulk fluid cream products received during the month from a cooperative association in its capacity as the operator of a pool plant, the final payment for such receipts shall be determined as follows:

(i) Multiply the hundredweight of Class I skim milk by the Class I skim milk price for the month at the receiving plant;
(ii) Multiply the pounds of Class I butterfat by the Class I butterfat price for the month at the receiving plant;
(iii) Multiply the pounds of nonfat solids in Class II skim milk by the Class II nonfat solids price;
(iv) Multiply the pounds of butterfat in Class II times the Class II butterfat price;
(v) Multiply the pounds of nonfat solids in Class IV milk by the nonfat solids price for the month;
(vi) Multiply the pounds of butterfat in Class III and IV milk by the butterfat price for the month;
(vii) Multiply the pounds of protein in Class III milk by the protein price for the month;
(viii) Multiply the pounds of other solids in Class III milk by the other solids price for the month;
(ix) Add together the amounts computed in paragraphs (b)(3)(i) through (viii) of this section and from that sum deduct any payment made pursuant to paragraph (b)(2) of this section.

Final payment to a cooperative association for bulk milk received directly from producers' farms. For bulk milk received from a cooperative association during the month, including the milk of producers who are not members of such association and who the market administrator determines have authorized the cooperative association to collect payment for their milk, the final payment for such milk shall be an amount equal to the sum of the individual payments otherwise payable for such milk pursuant to paragraph (a)(2) of this section.

(c) If a handler has not received full payment from the market administrator pursuant to § 1001.72 by the payment date specified in paragraph (a) or (b) of this section, the handler may reduce payments pursuant to paragraphs (a) and (b) of this section, but by not more than the amount of the underpayment. The payments shall be completed on the next scheduled payment date after receipt of the balance due from the market administrator.

(d) If a handler claims that a required payment to a producer cannot be made because the producer is deceased or cannot be located, or because the cooperative association or its lawful successor or assignee is no longer in existence, the payment shall be made to the producer-settlement fund, and in the event that the handler subsequently locates and pays the producer or a lawful claimant, or
in the event that the handler no longer exists and a lawful claim is later established, the market administrator shall make the required payment from the producer-settlement fund to the handler or to the lawful claimant as the case may be.

(e) In making payments to producers pursuant to this section, each pool plant operator shall furnish each producer, except a producer whose milk was received from a cooperative association handler described in § 1000.9(a) or (c), a supporting statement in such form that it may be retained by the recipient which shall show:

1. The name, address, Grade A identifier assigned by a duly constituted regulatory agency, and the payroll number of the producer;

2. The month and dates that milk was received from the producer, including the daily and total pounds of milk received;

3. The total pounds of butterfat, protein, and other solids contained in the producer’s milk;

4. The minimum rate or rates at which payment to the producer is required pursuant to the order in this part;

5. The rate used in making payment if the rate is other than the applicable minimum rate;

6. The amount, or rate per hundredweight, or rate per pound of component, and the nature of each deduction claimed by the handler; and

7. The net amount of payment to the producer or cooperative association.

§ 1001.74 [Reserved]

§ 1001.75 Plant location adjustments for producer milk and nonpool milk.
For purposes of making payments for producer milk and nonpool milk, a plant location adjustment shall be determined by subtracting the Class I price specified in § 1001.51 from the Class I price at the plant’s location. The difference, plus or minus as the case may be, shall be used to adjust the payments required pursuant to §§ 1001.73 and 1000.76.

§ 1001.76 Payments by a handler operating a partially regulated distributing plant.
See § 1000.76.

§ 1001.77 Adjustment of accounts.
See § 1000.77.

§ 1001.78 Charges on overdue accounts.
See § 1000.78.
§ 1001.85  Assessment for order administration.
    See § 1000.85.

§ 1001.86  Deduction for marketing services.
    See § 1000.86.
