2021-AMS-00210-F	7/6/2021	Yan, Ni	We'd like to request for the "qualified bidders list" for food procurement auctions. The file is available here ( <a href="https://www.ams.usda.gov/selling-food/becoming-approved">https://www.ams.usda.gov/selling-food/becoming-approved</a> ) in the "Additional Resources" section. We are especially interested in the "Size" attribute of the bidders. Those public files didn't say which time horizon the size applies to. We learnt that bidders self-report when they change size, so we want to have historical records of their size change including the time. If that is not available, we could also use historical lists of qualified bidders' sizes at different years/month for as far back as possible. 2021-AMS-00226-F	7/30/2021	Dehart, Michael	We represent Master Seatrade S.A. the owner of the M/V MASTER, which loaded a cargo of yellow corn from Zen-Noh Grain Corporation ("Zen-Noh") in Convent, LA. on/about April 25, 2021. We hereby request any and all FGIS and USDA records, documentation, reports and correspondence relating to the loading, sampling, testing and grading of this cargo of yellow corn. We do not know whether there was any re-testing and re-grading of the loading file samples of the yellow corn, either as a result of a Field Office quality assurance inspection of file samples or as a result of a review by the Board of Appeals and Review in Kansas City. However, if there was any re-testing then we hereby request any and all FGIS and USDA records, documentation, reports and correspondence relating to the re-testing and re-grading. Finally, if there has been any communication between the suppliers of the yellow corn, Zen-Noh or any other party, and the FGIS International Monitoring Program, or any other office of the FGIS, we hereby request copies of any such correspondence and a copy of the full contents of any FGIS file opened with respect to any correspondence or inquiry from the suppliers of the yellow corn, or any other party. We have also made a request today to Mr. Byron Reilly and Ms. Jennifer Weiland of the FGIS that the reference samples taken at the port of loading be preserved and not be discarded after 90 days, as is customary. We also make a request for BAR to re-assess the FGIS samples, including a separate count for mouldy kernels. (Date Range for Record Search: From 4/25/2021 To 7/30/2021)

2021-AMS-00234-F	8/10/2021	Walsh, Tarryn	Please be advised that our firm represents the owners of the M/V BLACK PEARL with respect to its loading a cargo of yellow corn at the Darrow, Louisiana terminal of Bunge North America, Inc. ("Bunge"), Mississippi River, on 12 October 2020. While berthed at Bunge, the vessel loaded 70,200 MT of yellow corn, with the shipment destined for the discharge port of Dammam Seaport, Kingdom of Saudi Arabia. We understand that in conjunction with the loading of the subject cargo of yellow corn aboard the M/V BLACK PEARL on 12 October 2020, USDA FGIS personnel performed official origin barge grades in accordance with the U.S. Grain Standards Act for grading and testing. As owners' representatives and as an interested party, and pursuant to the Freedom of Information Act, we request that the USDA provide the undersigned a copy of all official origin barge grade certificates as well as its complete file for the vessel and its cargo loaded at Bunge on 12 October 2020, including all cargo logs, inspection reports, cargo certificates and loading logs, as well as any sample analysis and other documents obtained or created by the USDA. Additionally, we request that the USDA hold and preserve, for possible future reanalysis, any and all samples of the M/V BLACK PEARL's yellow corn cargo taken by the USDA. 2021-AMS-00249-F	8/26/2021	Finley, Grace	Earlier in the spring, I was in communication with USAID about acquiring shipment-level data on USAID food aid shipments. They were kind enough to supply me with an excel (see attached) with aid shipments between 1997 and 2011 (though 2011 seems incomplete). For my research, I need to extend the data set to at least 2015. Below describes the aspects I am looking for: • USAID/USDA food aid shipments from 1997 through at least 2015 and later years if possible • An extension of the attached excel which includes the following: of Data at the shipment level of Data that include at least SO number, commodity code, material description, material package, program funding, agency, recipient country, load port, destination port, bulk/packaged flag, net pounds, released year, released month, units, metric tonnes, booked rate, total freight costs, commercial price per pound, total commercial costs, domestic inland rate, foreign inland rate • Metadata describing the column titles in the attached excel. Additionally, if possible, I would like to know the delivery points (final destinations). If possible, for each shipment, I would like to know: • The delivery points for each shipment • Either dollar value, units, or metric tonnage/net pounds to be sent to each delivery point. I just need all of the delivery points for 1997 to 2015+, a measure of the food aid sent to each delivery point, and a code that will allow me to connect each delivery point with the shipment that brought the food aid to the delivery point. (Date Range for Record Search: From 1/1/1997 To 12/31/2015)
