## TRADE MITIGATION SPECIFICATION FOR FRESH PLUMS COMMODITY SPECIFICATION for FRESH FRUIT JULY 2017

This specification is for Trade Mitigation purchases only.

New text is in **blue**, links to information are **underlined**.

This purchase must meet all relevant requirements of the **Commodity Specification for Fresh Fruit July 2017**, with additional requirements shown below.

For information regarding Food Safety Audit requirements please see attached link: **Trade Mitigation Food Safety Requirements**.

All Fresh Plums must be of 100% domestic origin. When requested, the vendors will make all paperwork available to SCI that confirms 100% domestic origin traceback from the destination inspection certificate to the origin orchard, including all steps in the process and a narrative of those steps.

Inspection will be at **destination**.

1. Grade – U.S. No. 1
2. Type of pack – 28 lb. cartons, loose pack.
3. Species – Japanese or European (Japanese/American hybrid species and Italian type prunes are prohibited).
4. All varieties and color types of the above species are allowed.
5. Size 55 or larger – Standard Pack
6. Must be loaded into a refrigerated trailer capable of holding air temperature not to exceed 36° F.
7. Refrigerated shipment at 32° to 36° F, (32° to 34° F, optimal).
8. Truckload case count – 1,360 cases.
9. WBSCM material code – 111130.

Failure to meet all **Master Solicitation**, Solicitation/IFB, and **Commodity Specification** requirements will result in automatic rejection of the load at destination. It is the vendor's responsibility to ensure the delivery of acceptable product. The replacement of any failed deliveries with acceptable product, will be the vendor's responsibility.

**All other terms and conditions remain unchanged.**
