	0-19	44	44	43	43	43	42	42	39	38	36	34	32

Substandard – Score 0 to 41 points if: Sample as a whole is definitely off-color, (whether or not due to discolored beans scored as major defects) or thick-seeded type containing more than 20 percent white beans.

¹ Grade A – Color must be bright and typical

² Grade B and C – Color must be typical
