KIWIFRUIT

U.S. NO. 1  U.S. NO. 2

KWI-CP-5
MOLD
JUNE 1990 (Previously August 1982)
When the kiwifruit has a flat side as shown on the top right, the width cannot exceed the height. Since width does not exceed the height, this fruit is considered “Not badly misshapen” and meets U.S. No. 2.

When the kiwifruit has a flat side as shown on the bottom right, the width cannot exceed the height. Since width does exceed the height, this fruit is considered “Badly misshapen” and is a cull.

USDA Visual Aid KWI-CP-6 Jan 2017
Width Versus Height on Round or Oval Shaped Kiwifruit

When the kiwifruit does not have a flat side as shown on the right, disregard width and height. This fruit is considered “Fairly well formed” and meets U.S. No. 1.
