Confidentiality and Data Review

- For all Wholesale Pork Reports 3/70/20 is applied.
- Reporters review submitted files at submission deadlines. Use checklists to ensure all plants have reported and then import data files.
Data Review

• For wholesale pork there is an exclusion policy to automatically exclude all lots containing less than 2,000 pounds and price ranges with the same low and high price from the reported lines.

• However all trading, whether excluded or included, is used in the pork cutout calculations.
Data Review

• Reporters handle between 8,000 and 10,000 records per day and have technical processes in place that flag any data falling outside preset parameters. This data is then confirmed by reporters through direct correspondence with buyers and sellers.
Current & Future Developments

• Pork Primal Cutout Enhancement

• Yield Update

• Comprehensive Pork Report
