of lamb and mutton were made effective February 16, 1931. In October 1940, the grade designations Medium and Common were changed to Commercial and Utility, respectively. In April 1951, Prime and Choice grades were combined and designated as Prime, the Good grade was renamed Choice, and changes were made in the other grades. In February 1957, the standards were again amended by changing the quality requirements. The standards were also amended in March 1960 to modify the minimum requirements for Prime and Choice grades by lowering the average fatness for these grades and by certain other ways regarding the conformation and quality factors.

- 2/ Included in total is lamb officially certified for CCC: 1942--26,031,000 lbs.; 1943--122,225,000 lbs.; 1944--59,029,000 lbs.; 1945--17,744,000 lbs.; 1946--10,787,000 lbs.
- 3/ Grade breakdown is for 6 months only. Grade breakdown is not available from July 1948 through June 1958.
- Compulsory grading of lamb and mutton carcasses was required from April 10, 1943, until October 16, 1946, and again from May 7, 1951, until February 5, 1933.
- 4/ 1965--January 1 through December 18 as reported in Market News and Annual 333. (Adj. for calendar year 56.3--by JL)
- 5/ Commercial production 1966 to date converted to 4-week (20-day) periods based on weekly F.I. lamb and mutton production estimates and the relation of monthly F.I. lamb and mutton production to total commercial production. Commercial production figures for the year are from Statistical Bulletin 333.
- 6/ Beginning with 1972, volume graded is estimated on the basis of a January 1 December 31 year.
- 7/ Breakdown by grade based on percent of each grade is of total volume graded for period 7/1 12/31.
- 8/ Yield Grading of Lambs begins in 1992.
