### Low Carbon Beef, LLC

**290 Amoretti Street**  
Lander, WY 82520

Contact: Colin M. Beal  
Phone: (540) 230-5049  
Email: info@lowcarbonranch.com

Verification of reduced greenhouse gas emissions in a group of cattle using a comprehensive life-cycle assessment model that incorporates impacts associated with management practices and cattle performance throughout the life of the animals. A qualified group of cattle must have life-cycle greenhouse emissions at least 10% lower than industry baseline based on the Low Carbon Beef Scoring Tables. The following specific points are verified for each group of cattle:

- Identify the candidate cattle by a unique identification number
- Identify the cattle owner(s) of candidate cattle
- Identify and verify relevant management practices associated with candidate cattle, including verification of all raising locations
- Identify and verify relevant cattle performance of candidate cattle, including age verification
- Identify the Emissions Score of candidate cattle determined by the Scoring Tables
- Assign certification status (Qualify, Disqualify) and provide the certificate

**Livestock:** Cattle (Beef)  
**Location(s):** Producers, Backgrounders/Stockers, & Feedyards
