Instituto Nacional de Carnes (INAC) – Points Verified

Certified Natural Meat Program of Uruguay (CNMPU):

- **Source Verified.** All animals and products can be fully traced from ranch to harvest, fabrication and packaging. Identification of animals is by means of individual plastic ear tags.
- **No added hormones**. No growth hormones of any kind or equivalent growth promotants have ever been administered to the animals. These are prohibited in the country by national law since 1984.
- **Not fed antibiotics**. No sub-therapeutic antibiotics have been fed or administered as a supplement in feed or water for the purpose of growth promotion.
- **No animal proteins in feed**. The animals have never been fed proteins of animal origin except maternal milk. The use of animal proteins in feed is prohibited in the country by national law since 1996.
- **Open Range - Animals never confined**. Animals have been raised in the open range all year and have never been confined.
- **Grass fed**. All animals in the program have been grown, raised and fattened on a grass (forage) diet.
- **INAC Never Ever 3** (no antibiotics, no growth promotants, and no animal by-products).
- **80% Grass Fed/20% Grain Fed.** Cattle must receive a diet which ensures a minimum of 80% coming from direct pasture harvest or other roughage sources during all their lifetime.

Ozark Mountain Poultry, Inc. dba Forester Farmer's Market – Points Verified

- **Raised with No Antibiotics Ever –** Requires no use of any antibiotics in feed, water, antibiotics in Ovo/or Ionophores in feed.
- **Fed an All Vegetable Diet and Never Fed Animal By-products –** Requires no use of any animal by products including, but not limited to: animal fats and shortenings, blood meal, feather meal, poultry by products, meat and bone meat, bakery meal, and in certain cases dried distillers grains.
- **No Antibiotics Used for Growth Promotion** - Requires no use of any antibiotics in feed or water.
- **Cage Free –** Broilers are allowed to roam in the barns, not confined to cages.
- **USA Source Verified –** All eggs/chicks will derive from the USA.
- **Verified Animal Welfare Program –** claim is based on the principles outlined in the National Chicken Council's Animal Welfare Guidelines. https://www.nationalchickencouncil.org/wp-content/uploads/2023/01/NCC-Broiler-Welfare-Guidelines_Final_Dec2022-1.pdf

Official Listing of Approved USDA Process Verified Programs

Official Listing of Approved USDA Process Verified Programs

Perdue Foods LLC dba Arthur Pet Products – Human Grade Points Verified

1. Association of American Feed Control Officials (AAFCO) defines the use of the term "human grade" only acceptable in reference to the product as a whole. The feed term specifies that every ingredient and the resulting product must be stored, handled, processed, and transported in a manner that is consistent and compliant with 21 CFR part 117 and all other applicable federal human food law as required by ingredient, process and/or facility type.
2. An annual audit by Agriculture Marketing Service through the Process Verified Program must be conducted to prove compliance with the use of "human grade" claim.
3. The facility must maintain written procedures to ensure "human grade" products are stored, transported, and handled throughout the distribution channel in a manner that maintains the product's "human grade" status.
4. In order for the facility to meet "human grade" claim on pet food finished product, the facility must maintain and make available upon request, the following documentation:
    a. All ingredients, raw materials and packaging materials supplied to the facility that are further utilized in the manufacture of human grade pet food, are fit for human consumption.
    b. All ingredients, raw materials, packing materials and finished product are stored, handled, processed, and transported in a manner that is consistent and compliant with 21 CFR part 117 and finished product is ready-to-eat.
5. The pet food manufacturing facility must be an USDA inspected facility.

Sargento Cheese, Inc. – Natural Cheese Point Verified

Natural Cheese is defined as: Cheeses that are ripened/un-ripened, soft, semi-soft, or hard products, that is produced by:

1. coagulating wholly or partly the protein of milk, skimmed milk, partly skimmed milk, cream, whey cream, or buttermilk (or any combination of such ingredients) through the action of lactic-acid-producing bacteria, rennet or other suitable coagulating agents, and by partially draining the resulting whey, while respecting the principle that cheese-making results in a concentration of milk protein (in particular, the casein portion), and that consequently, the protein content of the cheese will be distinctly higher than the protein level of the blend of the above milk materials from which the cheese was made; **or**
2. processing techniques involving coagulation of the milk protein obtained from milk to produce an end-product with similar physical, chemical, and organoleptic characteristics as the product described above. Cheeses are not made by techniques typically utilized for making process cheeses namely by grinding and mixing natural cheese(s) and heating the mix with the addition of emulsifiers and acidifiers to create a pliable, homogenous melted cheese product and is not cold pack cheese.
