Subject: Federal Milk Market Order system (SSMMOS)

HOLD OFF on FFMOS Producer Handler proposal hearings until the new staff are appointed and can carefully consider the issues.

I emphatically support local small dairy farms and strongly object to new even more restricting conditions proposed by big dairy industries, who are already getting the hard earned rewards from pasture-grazed farming.

HELP!!! WE LOVE OUR LOCAL DAIRIES AND OUR WONDERFUL PASTURE GRAZED MILK.

Sincerely,
Pat Brooks
