PATCH # 082

DOCUMENT: Terminal Market Inspection Training Manual, April 2021

REMARKS: The following guidance relates to whom may conduct commodity on-the-job training (OJT) and evaluation of the Market Inspection Training (MIT): Core Commodity, Inspection and Certification (Core CIC) program. The Core CIC program is currently under development; however, this guidance is being enacted now to allow sufficient time to develop and validate Qualified Training Providers (QTP) needed for this program.

BACKGROUND: The Core CIC program will be required for all fulltime/non-seasonal SCI Agricultural Commodity Graders (ACGs) providing TMI services and fulltime/non-seasonal Fed-State inspectors seeking restricted or unrestricted market licensee status. ACGs and Fed-State licensees will be required to successfully complete the MIT: Fundamentals of Market Inspection (FoMI) program prior to enrollment into the Core CIC program.

The Core CIC program is a balanced delivery approach utilizing the Blackboard online learning system for remote virtual learning, on-the-job training (OJT) and hands-on learning of commodity inspection and certification policy and procedures. The OJT component is delivered at a terminal or cooperative market location and reinforces fundamental TMI procedures while providing in-depth instruction, demonstration, and evaluation of inspection processes for selected commodities.

To further support commodity grading knowledge and ability, after the commodity Blackboard module and knowledge check exams are successfully completed, OJT commodity training and evaluation begins. OJT commodity training will be conducted by an approved Qualified Training Provider (QTP). Approval to be a QTP for Core CIC is determined by qualifications based on position status, subject matter knowledge and teaching ability. A Blackboard learning program is used to validate a candidate’s qualifications.

Qualified Training Provider (QTP) Evaluation, Development and Validation

To be recommended as an QTP for the Core CIC program, Regional Branch Chiefs (RBCs) or Federal Program Managers (FPMs) will submit an ACG, Training Officer, Sub-Area Supervisor, or Fed-State inspector who meets the following prerequisites as a candidate for a QTP.
• Fully Successful GS-9 or higher (for SCI)
• Unrestricted Market Licensee (for Fed-State)
• Qualified to perform all fresh commodity inspections without direct supervision

For those that meet these prerequisites, the RBC or FPM will submit an enrollment email to the SCI Training Branch (TB) via SCITrainingBranch@usda.gov requesting enrollment for the candidate into the Core CIC QTP Evaluation and Development learning program in Blackboard. Email must include:

• Candidate name and USDA or Fed-State email address
• Front-line supervisor name and email address
• Officer-in-Charge and Assistant Officer-in-Charge name and USDA email address (SCI only)
• Market office or inspection point name
• Name of program to be enrolled in (Core CIC QTP Evaluation and Development)

The TB will assign the Blackboard Core CIC QTP Evaluation and Development learning program to the candidate. Program must be completed within 60 days of assignment within Blackboard.

Core CIC QTP Evaluation and Development Program

The Core CIC QTP Evaluation and Development learning program will evaluate a candidate’s subject matter knowledge and develop specific teaching ability. It consists of three courses that must be successfully completed to be an approved QTP for Core CIC.

• Evaluation of Knowledge
• Adult Learning Development
• Core CIC OJT Teaching Development

Evaluation of Knowledge Course

Two courses are used to evaluate a candidate’s knowledge of material that will be taught within the Core CIC.

1. Fundamentals of Market Inspection (FOMI) Evaluation

   The FOMI Evaluation consists of a 30-question exam based on the existing MIT: FOMI program. Evaluation is successfully completed with a minimum exam passing score of 80%. If not successfully completed, candidate will be required to review the MIT: FOMI modules from the failed questions and take the module exam requiring a passing score of 80%. If candidate fails to successfully complete the retest, they have failed the
2. Core CIC Commodity Grading Evaluation

Once successfully completing the FOMI Evaluation, the candidate will complete the Core CIC Commodity Grading Evaluation. Core CIC commodity knowledge tested will consist of these commodity groupings:

- Peppers (Sweet and Other Than)
- Avocados (incl. Section 8e)
- Berries (Strawberry, Raspberries, Blackberries)
- Tomatoes (incl. Section 8e and Tomato Suspension Agreement)
- Table Grapes (incl. Section 8e)
- Oranges (FL/CA/TX) (incl. Section 8e)
- Potatoes (incl. Section 8e)
- Onions (incl. Section 8e)
- Summer Squash
- Asparagus
- Cucumbers
- Watermelon
- Lemons & Limes
- Mangos
- Kiwifruit (incl. Section 8e)
- Melons (Honeydew & Cantaloup)
- Blueberries

The Evaluation consists of 17 exams, with each consisting of five (5) questions, covering the 17 commodity groupings above. Evaluation is successfully completed with a minimum passing score of 80% for each exam. If not successfully completed, candidate will be required to review the Core CIC module(s) for each failed commodity grouping and take the module exam(s) requiring a passing score of 80%. If candidate fails to successfully complete the module exam(s), they have failed the evaluation of knowledge and will not be approved as a Core CIC QTP at this time. Candidate must successfully complete the requirements of mitigation training before re-enrollment in the Core CIC QTP course.

See Successful Completion below for further details.
Adult Learning Development Course

After successfully completing the Evaluation of Knowledge course, the candidate will attend the Adult Learning Development course. Sessions will be live, virtual, and instructor presented to develop proper demonstration, psycho-motor, communication and questioning techniques and abilities. To evaluate successful development, candidates will prepare a presentation on a Core CIC training scenario applying the adult learning techniques covered within the sessions. The Adult Learning Development course is successfully completed when the presentation is satisfactorily prepared and presented. Candidate will then move on to the Core CIC OJT Teaching Procedures and Tools Development course.

Core CIC OJT Teaching Development Course

After successfully completing the Adult Learning Developmental course, the candidate will attend the Core CIC OJT Teaching Development course. Sessions will be live, virtual, and instructor presented to develop functional awareness of the Core CIC OJT teaching plans, student evaluations, documentation, and communication methods that they will be responsible for as Core CIC QTPs. Core CIC OJT Teaching Development is successfully completed when the candidate attends all sessions.

Successful Completion of Core CIC QTP Evaluation and Development Program

The Core CIC QTP Evaluation and Development program is successfully completed when the candidate has successfully completed its three courses:

- Evaluation of Knowledge
- Adult Learning Development
- Core CIC OJT Teaching Development

Once successfully completed the candidate is qualified and is an approved Core CIC OJT Qualified Training Provider. The SCI Training Branch will maintain the list of approved Core CIC QTPs. Only approved QTPs may deliver final Core CIC training and evaluate trainees.

Mitigation Training

If a candidate fails to successfully complete any part of the course, they will not be approved as a Core CIC QTP and must complete mitigation training to address deficiencies. Mitigation training will be coordinated via candidate’s supervisor.

Candidates that complete mitigation training must wait a period of five (5) working days before being resubmitted for Core CIC QTP consideration. When resubmitting a candidate who has
completed mitigation training, the RBC or FPM will include a brief report of the mitigation with the re-enrollment email sent to the SCI Training Branch. Final determination of re-enrollment will be handled on case-by-case basis and made by the SCI Training Branch Chief in consultation with candidate’s supervisor and Regional Operations Branch Chief.

Candidates that are approved to be reenrolled will complete the part of the course that was failed. For Evaluation of Knowledge exams, the reenrolled candidate would retake the five (5) question commodity exam(s) initially failed. Evaluation is successfully completed with a minimum passing score of 80%, candidate may proceed to the next course in the Program. If candidate fails to successfully complete the reenrollment commodity exam(s), they have failed the Evaluation course and will not be approved as a Core CIC QTP at this time, their status will be determined on a case-by-case basis by Regional and senior Division management.
Terminal Market Inspection Training Manual

April 2021
“SCI moving forward in the 21st Century using technology, innovation, and old fashioned hard work”

Non-Discrimination Policy: In accordance with Federal civil rights law and U.S. Department of Agriculture (USDA) civil rights regulations and policies, the USDA, its Agencies, offices, and employees, and institutions participating in or administering USDA programs are prohibited from discriminating based on race, color, national origin, religion, sex, gender identity (including gender expression), sexual orientation, disability, age, marital status, family/parental status, income derived from a public assistance program, political beliefs, or reprisal or retaliation for prior civil rights activity, in any program or activity conducted or funded by USDA (not all bases apply to all programs). Remedies and complaint filing deadlines vary by program or incident.

Persons with disabilities who require alternative means of communication for program information (e.g., Braille, large print, audiotape, American Sign Language, etc.) should contact the responsible Agency or USDA's TARGET Center at (202) 720-2600 (voice and TTY) or contact USDA through the Federal Relay Service at (800) 877-8339. Additionally, program information may be made available in languages other than English.

To file a program discrimination complaint, complete the USDA Program Discrimination Complaint Form, AD-3027, found online at How to File a Program Discrimination Complaint and at any USDA office or write a letter addressed to USDA and provide in the letter all of the information requested in the form. To request a copy of the complaint form, call (866) 632-9992. Submit your completed form or letter to USDA by: (1) mail: U.S. Department of Agriculture, Office of the Assistant Secretary for Civil Rights, 1400 Independence Avenue, SW, Washington, D.C. 20250-9410; (2) fax: (202) 690-7442; or (3) email: program.intake@usda.gov.

USDA is an equal opportunity provider, employer, and lender.

INTRODUCTION

This manual is designed to provide guidance to Specialty Crops Inspection Division and Federal-State personnel of the United States Department of Agriculture (USDA), in terminal market inspection training of Agricultural Commodity Graders and Federal-State market licensees. If needed, contact your immediate supervisor for any situation not addressed in this manual.

Compliance with the Agricultural Marketing Service (AMS) guidelines does not excuse failure to comply with the Food, Drug, and Cosmetic Act or any other applicable Federal or State laws or regulations. SCI Division of the Specialty Crops Programs (SC), AMS is responsible for grading/inspecting, audits and standardization programs of fresh and/or processed fruits and vegetables and related products. The legal authority for grading, auditing and standardization activities are the Agricultural Marketing Acts of 1936 and 1946, as amended.

GUIDE FOR ELECTRONIC USAGE

The AIM system of instructional manuals is available electronically in Adobe Acrobat Portable Document Format (PDF) at the following intranet address:

When accessed electronically, AIM materials have hyperlinks and hypertext (visible as underlined blue text) available to the PDF user. Clicking on a hyperlink takes the reader to a web site with information relating to the subject. Hypertext links the reader to a different page within the current manual, or a different manual, with information relating to the subject. For example, the hypertext in the Table of Contents allows a reader to go directly to the section of interest in the manual by clicking on the section title.

PDF offers a variety of tools depending on the Adobe version the reader has. The newer the version, the more tools available. PDF documents are easily searchable for content within a document or within multiple documents. To learn about the variety of PDF search options:

- Click on the “Help” tab on the top of any page in Adobe Acrobat,
- Then click on the “Adobe Acrobat Help” bar,
- Type the word “Search” in the “Search” box, and click on the “Search” button,
- A series of options will become available,
- Click on the “Access Search Features” link and follow the instructions for the type of search you are interested in.
PURPOSE

Within this document Specialty Crops Inspection (SCI) Division Agricultural Commodity Graders (ACGs) and Federal-State Cooperative Market (Fed-State) Inspectors will be collectively known as “ACGs” unless otherwise designated.

This policy is intended for fulltime/non-seasonal SCI ACGs providing TMI services and fulltime/non-seasonal Fed-State ACGs seeking restricted or unrestricted market licensee status. For terminal market training policy regarding non-fulltime/seasonal ACGs contact SCI National Program Mission Support or a Federal-State Federal Program Manager.

The Market Inspector Training (MIT) Program being developed for 2021 will provide developing ACGs fundamental and comprehensive technical and professional skills training to ensure mission critical performance. Within the MIT critical areas of terminal market inspection are divided in four courses of progressive development. The first course, Fundamentals of Market Inspection (FoMI), is being made available as a standalone course to be used in conjunction with the already established On-the-Job Training Timetable for New Terminal Market Inspection Agricultural Commodity Graders. Until such time the MIT becomes operational this course and Timetable will be utilized to complete training for TMI ACGs. The Timetable is listed within this document for reference.

RESPONSIBILITIES

Student

The student is the focal point of all training and must make every effort to become qualified to perform in their duties. The success of student training greatly depends on the relationship between the supervisor and student. Student responsibilities include:

- Actively participate in all scopes of the training.
- Comprehend the applicable task requirements.
- Obtain and maintain knowledge and appropriate skill level within all training courses.
- Budget duty time to complete assigned tasks within established time limits.
- Request assistance from the supervisor when having difficulty with any part of training.

Qualified Training Provider

While the supervisor is responsible for ensuring the student is fully trained in the performance of their assigned duties, they may utilize qualified training providers to instruct and provide on-the-job training, review documentation and provide instructional feedback on student performance.

Qualified Training Providers include:

- GS-9 or Unrestricted Terminal Market ACG
- Training Officer
- SCI Training Branch Training Specialist
Providers are qualified that are fully trained in all aspects of terminal market inspection and maintain a fully successfully performance rating. While these qualified training providers assist in training, ultimately the supervisor will determine the student’s competency and ability in performing duties. Qualified Training Providers responsibilities include:

- Advise and assist supervisor in executing their training responsibilities.
- Conduct training as assigned by supervisor in support of FoMI course requirements.
- Review student training documentation and provide instructional feedback on student performance.
- Brief supervisors on the status of each student and provide training updates and recommend training improvements.
- Assist supervisor in coordination and documentation of correction actions.
- Identify training resources in support of training activities.

**Supervisor**

Supervisors have the single greatest impact on mission accomplishment. They must share their experiences and expertise to meet mission requirements and provide a quality training environment to qualified training providers and the student.

While the supervisor is responsible for ensuring the student is fully trained in the performance of their assigned duties, they may utilize qualified training providers to provide on-the-job training, review documentation and provide instructional feedback on student performance. While these qualified training providers assist in training, ultimately the supervisor will determine the student’s competency and ability in performing duties. Supervisor responsibilities include:

- Evaluate training results and documentation to ensure student is fully prepared for their mission responsibilities.
- Ensure student performance deficiencies are addressed via effective corrective actions.
- Ensure student training duties do not detract from primary duties.
- Ensure training is planned and scheduled accordingly to meet office needs.
- Ensure qualified training providers are aware of the training requirements in support of the overall mission.
- Budget and allocate resources to support training requirements, including training time and training providers.
- For probationary students, ensure Division required evaluations include a review of previously certified tasks to ensure the student met duty position requirements.

**TRAINING DOCUMENTATION**

Keeping documented records of the training provided, including critical milestone dates, is essential in maintaining the integrity of the training program. All documentation pertaining to an ACG’s terminal market inspection training may be kept electronically (i.e. Blackboard, computer...
server shared files, supervisor’s hard drive, etc.) or hard copy (i.e. written exams and exercises). All records will include the name of the ACG, and where applicable; dates, market office, scope and supervisor signature. Training documentation will fall under the general records retention policy and will be transferred accordingly during ACG duty location transfers.

**SC-340 TMI Probationary Evaluation Form**

The SC-340 TMI Probationary Evaluation Form (intranet link) is to be used to document the performance of probationary SCI ACGs performing Terminal Market Inspections (TMI). SC-340 is not required for ACGs who are not in probationary status or for Fed-State ACGs. The Probationary Evaluation form needs to be completed until the ACG completes their first-year probation period.

The evaluation needs to be completed bi-weekly, starting on first day on duty until ACG is cleared to inspect one commodity without direct supervision and has no unacceptable or deficient elements noted. Begin to incorporate performance into the schedule as outlined in the Supervisory Reviews of Agricultural Commodity Graders policy and reduce SC-340 completion to once per month for duration of probationary period. If at any time during the once per month period the ACG’s performance becomes unacceptable or deficient, the frequency would revert to bi-weekly for duration of probationary period.

The SC-340 TMI Probationary Evaluation Form is available on the AMS Forms Catalog at the following intranet link: [https://usdagcc.sharepoint.com/sites/ams/AMSFormsCatalog/SC-340.pdf](https://usdagcc.sharepoint.com/sites/ams/AMSFormsCatalog/SC-340.pdf)

**On-the-Job (OJT) Checklist**

ACG training progress will be tracked via the OJT Checklist (Appendix I). It is intended to record the progress of fundamental training, commodity training and other inspection related tasks. Once the training for that task or commodity is satisfactorily completed the supervisor will confirm that the employee is qualified to perform that task or inspect that commodity without direct supervision.

The OJT Checklist can also be referenced by a dispatcher to quickly identify the ACGs abilities when assigning terminal market inspection requests. The OJT Checklist will be maintained until the completion of the On-the-Job Training Timetable for New Terminal Market Inspection Agricultural Commodity Graders.

**FUNDAMENTALS OF MARKET INSPECTION (FOMI) COURSE**

The FoMI course is required for all ACGs hired since June 1, 2020 that perform terminal market inspections. ACGs hired after the effective date of this policy will be required to successfully complete the FoMI course prior to continuation of the established On-the-Job Training Timetable for New Terminal Market Inspection Agricultural Commodity Graders.

The FoMI course is a balanced delivery approach utilizing the Blackboard online learning system for remote virtual learning and on-the-job training activities, within an actual terminal
market environment, to reinforce critical TMI procedures. A Certificate of Completion is issued with the successful completion of all FoMI requirements. Once the FoMI is successfully completed, commodity training according to the Timetable can commence.

**Pre-enrollment**

Prior to enrollment the student will be assigned inspection equipment as outlined in the General Market Manual and Inspector Grading Equipment Inventory Sheet.

The supervisor will provide a hard copy of the current General Market Manual and Fresh Fruit and Vegetable Inspection Certificate (FV-300) Manual and provide sufficient time for the student to read the sections as indicated below:

A. General Market Manual:
   - Authority
   - Relationship with Industry
   - Prohibited Activities
   - Requesting Inspections
   - Inspection Equipment
   - Carrier, Load, Lot
   - Determining Type of Inspection
   - Performing the Inspection
   - Federal Marketing Orders and Section 8e Requirements
   - Certificate
   - Fees
   - Reinspections and Appeals
   - PACA

B. Fresh Fruit and Vegetable Inspection Certificate (FV-300) Manual:
   - General Instructions
   - Identifying the Inspection
   - Describing the Product

**Enrollment**

The FoMI course is required for all ACGs hired since June 1, 2020 that perform terminal market inspections. ACGs hired after the effective date of this policy will be required to successfully complete the FoMI course prior to continuation of the established On-the-Job Training Timetable for New Terminal Market Inspection Agricultural Commodity Graders.

A. SCI

The front-line supervisor will submit an enrollment request email to their respective Regional Branch Chief (RBC) or Assistant Regional Branch Chief (ARBC) that provides:

- Student name and USDA email address
• Front-line supervisor name and USDA email address
• Officer-in-Charge and Assistant Officer-in-Charge name and USDA email address
• Market office or inspection point name
• Name of course to be enrolled in
• Acknowledgment that all pre-enrollment requirements have been met.

The RBC or ARBC will review the request and if approved forward the email to the SCI Training Branch via SCITrainingBranch@usda.gov stating that the request to enroll is approved. RBC or ARBC will contact the SCI Associate Director of Inspection Operations for additional guidance if approval is denied.

The Training Branch will respond with further enrollment information and instructions.

B. Fed-State

The Fed-State front-line supervisor will submit an enrollment request email to their respective Federal Program Manager (FPM) that provides:

• Student name and State government email address
• Fed-State front-line supervisor name and State government email address
• Market office or inspection point name
• Name of course to be enrolled in
• Acknowledgment that all pre-enrollment requirements have been met.

The FPM will review the request and if approved forward the email to the SCI Training Branch via SCITrainingBranch@usda.gov stating that the request to enroll is approved. FPM will contact the Federal State Inspection Management (FSIM) Branch Chief for additional guidance if approval is denied.

The Training Branch will respond with further enrollment information and instructions.

Goal

Knowledge and comprehension of General Market Manual (GMM) concepts covering basic inspection procedures, U.S. Grade Standards and the SC-300 market certificate.

Method

Combination of Blackboard modules, exams, desktop and live inspection activities completed within the local office or at another market location if sufficient live inspection availability is not feasible.
Structure

Course consists of 21 Blackboard modules, 21 knowledge check exams, and eight on-the-job activities. Modules and activities do not need to be taken all at one sitting and it is encouraged that the supervisor has the student accompany qualified training providers during live inspections to break up sittings and provide exposure relevant to learning topics whenever practical.

Approximate Course Length

Average expected time to complete all requirements of the course is 32 hours (12 hours of Blackboard virtual training and testing, 20 hours of activities). As many activities require the student to accompany a live inspection, local workload and staffing may impact the time it takes to complete live on-site activities.

FoMI must be successfully completed within six (6) weeks of beginning the course.

Required Office Resources

- Access to a computer with internet availability.
- Computer access to a printer within the local office.
- FV-300N note sheets
- Pen
- Notepad
- Calculator

Testing

Each module has a knowledge check exam requiring a minimum score of 70% to advance to the next module. Mandatory activities require supervisor acknowledgement of successful completion.

Knowledge Check Exam

If an exam score is less than 70% on the first attempt the student will have an additional attempt to successfully pass the exam. If, after two attempts, the student has not successfully passed the exam:

Student will:
- Notify their supervisor that they have exceeded their allowable attempts.
- Provide a copy of incorrect exam questions and answers from Blackboard to their supervisor:
  - Go to usda.blackboard.com
  - Go to the Fundamentals of Market Inspection course
  - Click on Gradebook from the left-panel course menu
Click the link for the failed item
In the Calculated Result list, click on the score for any failed attempt to view the missed questions.
Print the page from this window.

Supervisor will:
- Review or assign review to a qualified training provider, the incorrect questions and answers with the student for clear understanding of the nature and subject matter of the question.
- Once the student has a clear understanding regarding the incorrect questions and answers, forward a request for a third attempt to the Training and Development Branch via email at \texttt{SCITrainingBranch@usda.gov} detailing that the review is complete, and that the student is prepared for the third attempt to successfully complete the exam.

Exam will be rereleased to the student to complete the third attempt. If the student does not successfully complete the exam on the third attempt:

Supervisor will:
- Act via additional localized mitigation training and subject matter review to ensure the student has retained the appropriate knowledge and demonstrates the relative ability. Qualified training providers may be utilized to provide mitigation training.
- Ensure all mitigation training provided is documented via the student’s local training record.
- Contact the Chief of the Training and Development Branch for further instruction when mitigation training is completed.

Activities

Activities are taken once the module is successfully completed. Many activities require the student to accompany a qualified training provider for on-the-job exposure to live inspections. While more than one activity may be completed during a single live inspection, it is recommended that supervisors provide as much exposure to the live TMI environment as possible by utilizing multiple live inspections in completion of activities. Further guidance per activity is listed within each activity worksheet in Blackboard.

Activity worksheets require qualified training provider or supervisor review for accurate student responses. Answer keys will be provided for efficient and uniform reviews. Activity worksheets must be complete, accurate, legible and be in accordance with established Division policy and instructions. Errors must be addressed, and effective corrective actions noted.

Once an activity worksheet is reviewed and necessary corrective actions are complete, the supervisor will:
- Sign the activity worksheet acknowledging that student responses are successfully completed and are in accordance with established Division policy and instructions.
- Complete the FoMI activity attestation record in Blackboard once all FoMI activities are successfully completed.
• Keep completed activity worksheets in the student’s local training file.

**Training Progress**

Student training progress can be accessed in Blackboard by the designated supervisor, Officer-in-Charge/Assistant Officer-in-Charge, Federal Program Manager, Regional Branch Chief or Assistant Regional Branch Chief as indicated on the FoMI enrollment email.

**Successful Completion of Course**

When all modules have been viewed, all knowledge check exams passed, and activity completion is attested to by the supervisor in Blackboard, the course is successfully completed, and a certificate of completion will be issued to the student.

**CONTINUATION OF TMI TRAINING**

Until such time the MIT Program is established, and commodity specific courses developed, students will continue to follow SCI guidance and timetables for TMI commodity training as indicated in the On-the-Job Training Timetable for New Terminal Market Inspection Agricultural Commodity Graders. Commodity specific training is not authorized without successfully completing the Fundamentals of Market Inspection (FoMI) course.

**ON-THE-JOB (OJT) TRAINING TIMETABLE FOR NEW TERMINAL MARKET INSPECTION (TMI) AGRICULTURAL COMMODITY GRADERS (ACGS)**

This Timetable is intended for supervisors who require ACGs to perform terminal market inspections. Commodity specific training is not authorized without successfully completing the Fundamentals of Market Inspection (FoMI) course.

The Timetable is structured for ACGs with no previous inspection experience. Completion of all time periods is approximately six months. The actual time needed will vary from one ACG to another, depending on previous experience, background and abilities. Qualified training providers and supervisors will work together to ensure that the student is properly trained at an appropriate pace, in accordance with field office needs.

The process requires close communication and coordination between the qualified training provider and supervisor. Where the local market is not an active market daily, it may be financially advisable to have the student go to an active market, especially for Fed-State students from Shipping Point areas.

**Period I**

A. Approximate length is two months

B. Local Inspection Office Procedures and Equipment:
   - Review local office procedures including answering phone calls and filing of inspection related paperwork.
• Assign full complement of inspection equipment and explain intended use.
• Provide a hard copy of the General Market Manual (GMM) and Fresh Fruit and Vegetable Inspection Certificate (FV-300) Manual and provide sufficient time for the student to read the sections as indicated above under FoMI Pre-Enrollment.
• Enroll the student in the FoMI course.
• Student successfully completes the FoMI course.
• Record the date the FoMI certificate was issued on the student’s OJT Checklist.

C. Beginning of Commodity Specific Training:
• Once the student has successfully completed the FoMI course, provide hard copies and instructions on where to find electronic versions of standards and handbooks of the **four commodities** to be inspected at the locally assigned market.
• For students with no previous experience begin with less complicated commodities such as peppers, berries, squash or cucumbers. Provide sufficient time for the student to read the entire handbook of each commodity prior to being taught.
• Administer corresponding Commodity Questionnaires, grade and review with student.
• Utilize live or mock inspections as needed to demonstrate, review and knowledge check all commodity related scopes and procedures.
• Increase student’s level of independent grading as knowledge and skills develop.

D. Efficiency and Customer Service:
• Reinforce importance of dedicated and timely delivery of services.
• During live inspections demonstrate best practices in providing expedient and attentive service to all customers.
• Where possible introduce student to applicant points of contact.

E. Documentation:
• Throughout this period a training log will be maintained for each student recording scopes and dates of training provided.
• For SCI ACGs the TMI ACG Probationary Evaluation form (SC-340) must be completed every two weeks until the student is cleared to inspect their first commodity without direct supervision. At that point the frequency may be decreased to once per month as the student will follow the normal schedule for Supervisory Reviews of Agricultural Commodity Graders.
• At any time during the once per month timing if the student’s performance shows more than one Unacceptable or Deficient element, the frequency would revert back to bi-weekly and seek guidance from the Regional Inspection Operations Branch office or Federal Program Manager regarding how long the bi-weekly timing will continue.
• Review and critique all independently graded inspection note sheets and certificates. Complete a **SCI Records Review form (SC-383)** (intranet link) documenting the reviews.
- Record FoMI training completion date and commodity status on the student’s On the Job (OJT) Checklist.

### Period II

A. Approximate length is two months

B. Continuation of Commodity Specific Training:
   - Increase frequency and level of independent grading on commodities taught in first eight weeks.
   - Provide hard copies or electronic versions of standards and handbooks for **four additional commodities** inspected at the locally assigned market.
   - Gradually increase the complexity of commodities covered.
   - Provide sufficient time for the student to read the entire handbook of each additional commodity prior to being taught.
   - Administer corresponding Commodity Questionnaires, grade and review with student.
   - Utilize live or mock inspections as needed to demonstrate, review and knowledge check all commodity related scopes and procedures.
   - Increase student’s level of independent grading as knowledge and skills continue to develop.

C. Efficiency and Customer Service:
   - Ensure that dedicated independent grading and timely delivery of services is occurring.
   - Ensure that best practices are being followed in providing expedient and attentive service to all customers.

D. Documentation:
   - Throughout this period maintain and update training log.
   - For SCI ACGs the TMI ACG Probationary Evaluation form (SC-340) must be completed once per month as the student follows the normal schedule for Supervisory Reviews of Agricultural Commodity Graders.
   - Attach copies of the student’s Supervisory Reviews along with the TMI ACG Probationary Evaluation form.
   - At any time during the once per month timing if the student’s performance shows more than one Unacceptable or Deficient element, the frequency would revert back to bi-weekly and seek guidance from the Regional Inspection Operations Branch office or Federal Program Manager regarding how long the bi-weekly timing will continue.
   - Review and critique all independently graded inspection note sheets and certificates. Complete a SCI Records Review form (SC-383) (intranet link) documenting reviews.
   - Continue to update student’s OJT Checklist with each completed and evaluated task or commodity.
Period III

A. Approximate length is one month

B. Continuation of Commodity Specific Training:
   - Monitor independent grading on commodities taught in first four months, take corrective actions as needed.
   - Continue to increase the complexity and number of commodities covered.
   - Rotate student into more complex assignments.
   - Administer corresponding Commodity Questionnaires on new commodities as needed.
   - Based on abilities and individual development steadily increase the complexity of commodities taught, building toward the most complex Standards such as potatoes, tomatoes and table grapes. Utilize live or mock inspections as needed to demonstrate, review and knowledge check all commodity related scopes and procedures.
   - Independent grading should be occurring regularly on all commodities previously covered.

B. Efficiency and Customer Service:
   - Ensure that timely, expedient and attentive delivery of services is occurring to all customers.

C. Documentation:
   - Throughout this period maintain and update training log.
   - Throughout this period the TMI ACG Probationary Evaluation form (SC-340) must be completed as outlined in Period I.
   - Review and critique all independently graded inspection note sheets and certificates. Complete a SCI Records Review form (SC-383) documenting reviews.
   - Continue to update student’s OJT Checklist with each completed and evaluated commodity.

Period IV

A. Approximate length is one month

B. Continuation of Commodity Specific Training:
   - Monitor independent grading on commodities taught in first six months, take corrective actions as needed.
   - Continue to increase the complexity and number of commodities covered.
   - Continue to rotate student into more complex assignments as warranted.
   - Independent grading should be occurring regularly on all commodities previously covered.
C. FEIRS (where applicable):
   • Once the minimum ACG performance, experience, and activity requirements within the Requesting Deployment of the Fresh Electronic Inspection Reporting/Resource System (FEIRS) Program and Related Equipment policy are reached, a request for FEIRS deployment can be made.
   • Once FEIRS basic training is complete, all inspections are to be completed via FEIRS.
   • Monitor issued FEIRS certificates for accuracy.

D. Digital Imaging:
   • Provide guidance on camera operation and General Market Manual guidance for taking and processing of digital images.

E. Efficiency and Customer Service:
   • Ensure that timely, expedient and attentive delivery of services is occurring to all customers.

F. Documentation:
   • Throughout this period maintain and update training log.
   • Throughout this period the TMI ACG Probationary Evaluation form (SC-340) must be completed as outlined in Period I.
   • Review and critique 25 independently graded inspection FEIRS certificates per month. Complete a SCI Records Review form (SC-383) (intranet link) documenting reviews.
   • Continue to update student’s OJT Checklist with each completed and evaluated commodity and with completed FEIRS basic training.

**TMI TRAINING COMPLETION**

Once the student has completed the requirements of Periods I through IV, has demonstrated sufficient knowledge, skill and ability toward inspection of commodities not covered and without direct supervision, this training is considered complete and the final entry made in the student’s OJT Checklist.
