

to the USDA

I'm writing about the proposed make allowance change on milk pricing.

Do the processors think they have it tough? What time do they quit at night? Do they work 7 days a week, 365 days a year?

We milk 65 cows, have been milking cows for 19 years, and can you please tell me are you getting the same wage you were 19 years ago?

We lost 2,000 dairy farms in the last 10 years, and more going all the time.

And who can I charge with a fuel surcharge like other businesses are doing? My fuel prices is up just like theirs.

Do people really care if we have farmers?

If you want to keep dairy farmers around we need to be paid at least what it cost to produce plus a little extra for cost of living.

And I would like to see the best free milk on the market, I think people would be willing to pay extra for it.
